# Intensive Advertising Brings Home the Bacon

The vast majority of recognized Authorities admit that intensive advertising brings the results.

Intensive advertising in Medicine Hat and surrounding district can only be done thoroughly through the medium of the **NEWS**.

The Readers of the **NEWS** will ask for your goods if they see them advertised. Create the demand, and the buyers will do the rest.

We are Members of the  
**AUDIT BUREAU OF CIRCULATION**

## Job Printing

### **Ruling, Book Binding and all kinds of Printing**

The **NEWS** has a complete and up-to-date plant, and can do any printing you may require. There is no need for any firm, corporation or individual to send out of town for any printing. Compare the quality of our work and promptness of service with others, and we will get your order.

# The Medicine Hat News

Delivered to your door each evening for 25 cents per week.

By mail, \$6.00.

Weekly by mail \$1.50.

A. J. N. TERRILL, Editor and Manager

# Introductory

---

**H**ENDERSON'S Alberta Gazetteer and Business Directory is herewith presented to its patrons and the general public with the assurance that the work is in every respect up to the standard of general excellence made possible by thoroughly systematized methods.

**The Gazetteer Section, Page 33.** This volume contains a descriptive sketch of the cities, towns, villages, post offices, settlements, etc., in the Province of Alberta and Athabasca District, showing the exact geographical location of each, the railroads and watercourses upon which they are situated, or the nearest points, distance from well-known centres, the population, banks, churches, schools, telegraph, express and all matters of any importance.

In obtaining the population of the many places herein shown every possible effort has been exercised by the publishers to obtain full data. Many of the country post offices are at present so remote from railway lines that it was impossible, under the circumstances, to visit them, and hence, a few do not indicate their full quota of inhabitants. In every case where it was possible to go or to have the names furnished by mail, the full population of town dwellers and the surrounding farmers, ranchers and homesteaders are recorded.

The use of the Gazetteer is becoming more general every year and its great importance as a business factor is now universally recognized. There is nothing more conducive to the development and extension of commerce than an easy means of communication such as a complete and reliable Gazetteer affords. It is an unexcelled medium for use in the sale and purchase of goods and every business and professional man is entitled to the opportunities it offers for the classification of his wares and for keeping his card where it may be found at all times by those who seek such information. It is of great value in extolling and advertising the resources of the country and a strong factor in inducing immigration.

**The Classified Business Directory, Page 633.** Each of the above names is again listed under the classification representing their particular line, bringing the names of all persons in the Province, engaged in any business or profession, together under one heading separated by towns, which are arranged in alphabetical order. This classified or special trade section constitutes an epitome of the business interests of the Province and also furnishes in this one volume lists of businesses not obtainable in any other medium issued. It offers the most economical and effective method of becoming acquainted with the trade to both buyer and seller.

The publishers desire to extend their thanks to the enterprising business men of Alberta whose patronage made possible the publication of this valuable work.

Very truly,

HENDERSON DIRECTORIES ALBERTA, LIMITED,

June 1924.

**ATHABASKA**

(Also spelled Athabasca.)

a P.O. and terminus of the C.N.R. Athabaska branch, 95 miles north of Edmonton in Athabaska Prov. Elec. Div. Has C.N.R. agt., G.N.W. Telegraphs, Can. Nor. Express and Alberta Govt. Telephones. This is a well-timbered country and the advantages far exceed that of the prairie as a farming land because all fuel, fence posts, etc., do not have to be hauled any distance and the trees serve as a wind break. Crop failures have never been known here and the wheat and oats are of the highest quality. It is a common thing for oats to average 100 bushels and wheat 60 bushels to the acre. A few shallow wells have been sunk here and gas has been found but not in commercial quantities. Evidences of crude oil are plentiful, such as oil seepages, oil taste and oil scum on water. A British company of large capitalization has secured leases of large tracts of country around Athabaska, and is at present drilling for oil. Glass sands are found here in large quantities. Population 450. Sec.-treas.—J P Evans

**BANFF**

a P.O. in Rocky Mountain Prov. Elec. Div. Is the largest town in the Rocky Mountains National Park of Canada and can be reached from Calgary by a first class motor road 85 miles in length or by main line of the Canadian Pacific Railway.

It is famous as a summer and winter resort, and is visited during a season by from 60,000 to 80,000 tourists from all parts of the world. Its resident population is approximately 1,200.

**ATTRACTIONS**—Among the varied and unequalled attractions at Banff are the famous Bow Falls, the Sulphur Cave, Sundance Canyon, the Bow and Spray Rivers. Mounts Cascade and Rundle, each over 9,000 feet in altitude and the hot sulphur water springs flowing from the base of Sulphur Mountain. The sulphur water flow is utilized by two large Government bathing establishments with a combined capacity of over 1,200 bathers per day.

Among the other attractions at Banff maintained by the Federal Government are the Zoo and Museum the animal enclosures where may be seen Buffalo, Rocky Mountain Goats and Sheep, Elk, Moose and Yak, and a beautifully located Golf Links open to the public for a nominal fee.

In addition to the main motor road running to Lake Louise—thirty-eight miles west—Banff is the hub of over thirty miles of roads to points of interest. Among these are Johnston Canyon, Lake Minnewanka, Mount Edith Pass and Vermillion Lakes, Tunnel Mountain, the Hoodoos and the Loop Drive.

The Bow River and Lake Minnewanka afford excellent boating facilities, and boats can be hired or the regular water trips taken.

Good fishing can be enjoyed in season at the numerous lakes and streams in the vicinity of the town.

**FACILITIES AND ACCOMMODATIONS**—Banff has an excellent and extensive water and sewerage system, paved streets, electric power and telephone service, and a well-equipped private hospital.

It is well supplied with first class

**BASSANO**

a P.O. and junction point in Bow Valley  
 Prov. Elec. Div., on the main line of the  
 C.P.R., 87 miles east of Calgary and 93  
 miles northwest of Medicine Hat. The  
 town at present has approximately 1,000  
 people. It has a large public school,  
 three churches, three benevolent societ-  
 ies, a very up-to-date agricultural soci-  
 ety and a very modern hospital, fully  
 equipped. The P.O. distributes to 44  
 sub-offices. The town is electric lighted,  
 having a twenty-four hour service and  
 has all the conveniences of a city, such  
 as waterworks, sewerage, incinerator,  
 disposal plant, telephones, etc. Bassano  
 is headquarters of the supply depart-  
 ment for the Dept. of Natural Resources  
 of the C.P.R. for the eastern section of  
 irrigation block. Bassano is a sub-  
 judicial district and registration point  
 with a resident deputy sheriff and dep-  
 uty clerk. It is headquarters for the  
 government school inspector, road in-  
 spector and veterinary. The city water  
 supply is obtained from the Bow River,  
 which is three miles southwest of town,  
 where is situated one of the world's  
 longest dams, 59 feet high and approxi-  
 mately 1½ miles long. This dam was  
 built by the C.P.R. to supply the irriga-  
 tion block east with water. The pros-  
 pects for great development in the near  
 future are bright for Bassano.

## BLAIRMORE

a P.O. and town in Rocky Mountain Prov. Elec. Div., on C.P.R. Crows Nest line, 12 miles east of Crows Nest and 27 west of Pincher Creek. The West Canadian Collieries Ltd. employ an average of 475 miners and produce an average of 2,000 tons of high grade bituminous steam coal daily. Canada Cement Co. own and operate large cement plant and lime kilns. Unlimited supply of raw materials close at hand. The Blairmore Coal Co. Ltd. are developing large coal areas and are installing machinery. The McLaren Lumber Co. operate a large sawmill, manufacturing both lumber and bath, and are doing an extensive logging business. There is also a sash and door factory, and the Blairmore Iron Works employing quite a large number of men. The Provincial Govt. have built a court house and police barracks. There has also been recently established in town a tourist camp site with water and light and other conveniences. Blairmore is the supply and distributing centre for a number of towns in the immediate vicinity. Coal mining and lumbering are the principal industries. The lighting system is the property of the town and current is purchased from the West Canadian Collieries Ltd., through the East Kootenay Power Co. The municipality operates

# City of Calgary

Calgary is named after a small town in Scotland; the word "Calgary" is of a Gaelic origin and means clear water.

## LOCALITY AND ADVANTAGES

The City of Calgary is the business centre of the Province of Alberta, and the largest and most important city between Winnipeg and Vancouver. Its location on the C. P. R. main line in the foothills of the Rocky Mountains, at the junction of the Bow and Elbow Rivers, is picturesque. By reason of its strategic and geographical situation, the abundant supply of pure water, the untold wealth of the surrounding country awaiting development, and above all, by reason of its cheap electric power, the City offers most desirable inducements for the establishment of manufacturing industries. An extract from "Town-sites of the North West Territories" reads as follows:

"At the junction of the rivers (Bow and Elbow) on Section 14, is the town of Calgary, which will soon become one of the most important places in the Northwest. Its geographical position, picturesque site proximity to the Rocky Mountains, access to wood and timber by way of both rivers, and its ample supply of excellent water all contribute to this end. C. E. La Rue 1883.

At the time the above was written, Calgary had a population of less than 500, and Calgary's present status surpasses the above forecast.

The business section and part of the residential district has spread over the valley which was the original townsite, and has expanded over the surrounding heights, from which views of the Rocky Mountains are obtainable. Calgary is approximately 840 miles west of Winnipeg, 620 miles east of Vancouver, 138 miles north of the boundary line between Canada and the United States of America, and 83 miles from Banff, "The Playground of Canada," and the "Canadian Alps."

## TO TOURISTS AND VISITORS

Calgary offers much of interest to visitors. Perhaps no city of its size on this continent possesses such fine business buildings or a larger number of comfortable and beautiful homes. It offers every facility for business or amusement that can be found in much larger cities wherever they may be.

In addition to the Hotel Palliser, one of the finest hostels on the continent, there are many other first class hotels, with rates to suit all purses. Unusual shopping facilities exist and several beautiful modern theatres provide the best there is in drama, vaudeville and pictures.

A drive about the City will be found of interest, and the residential districts on both the north and south hills should be included, as from them a magnificent view on a clear day can be obtained of the Rockies. The Sarcee Indian Reservation adjoining the city on the southwest provides an interesting drive. St. George's Island and Bowness Parks are specially worthy of a visit.

For the sportsman there is, in season, shooting for duck, chicken and partridge, as well as mountain trout fishing, all within a few hours' drive from the city.

Calgary is at the gateway of the Canadian National Park and an extremely interesting and picturesque motor drive of about four hours will take one to Banff (83 miles distant). Lake Louise is also available; and the Rockies can be penetrated for a considerable distance along the Banff-Windermere Road, the uncompleted link which will be open to the public in 1923. Calgary will then be linked up with the Grand Circle Tour (Blue Trail), which will connect all the scenic attractions in Western America; passing from Calgary south through Glacier Park (Montana), Yellowstone Park, Grand Canyon (Arizona), Los Angeles and then north through San Francisco, Crater Lake Park, Spokane, Columbia River Valley (Windermere), and Banff, east to Calgary.

The Calgary Automobile Camp Provides free camping facilities, such as water, light, fuel, lavatories and fireplaces. A caretaker, sworn also as a constable, is on duty at the camp entrance for the purpose of safeguarding tourists' property which they may temporarily leave at this camping place. It is located on St. Patrick's Island, access to which is via St. George's Island Park, near the centre of the City. To reach the camp, proceed on Ninth Avenue to Twelfth Street East, then north on this street and cross bridge to Park. Follow signs to camping ground. Caretaker constantly in charge. Visiting motorists are cordially invited to make use of this camp.

For touring information or other assistance, visiting motorists are requested to call at the Calgary Automobile Club headquarters, 125a Sixth Avenue West.

The Calgary Board of Trade maintains offices in the Lougheed Building, corner First Street West and Sixth Avenue, and the staff are always pleased to answer questions in regard to the City or Country, and its many opportunities. Club rooms are maintained by the Board in the same building, to which all visiting business men are cordially welcome.

Rotary, Kiwanis and Gyro Clubs welcome out of town members at the Palliser Hotel: Tuesday for the Rotarians, Thursday for the Kiwanians, and Thursday at Hudson's Bay for the Gyros. All prominent fraternal organizations are represented in Calgary.

Golf and Country Clubs offer special facilities to those interested in outdoor sport.

The Municipal Golf Club is located in Shaganappi Park, and can be reached by the Killarney Electric Car Line or by motoring along the South Banff road. It is about four miles from the centre of the city. Visitors are permitted use of the links by applying to the caretaker; fees, 35 cents per game.

A 6,000-yard golf course, situated in the N.E. section of the city. A hilly course, rich in turf, with a creek run-

ning through the second nine, which adds to the "sportiness" of the course. Four street cars will take you within 3 minutes of the club house—two Crescent Heights, two Tuxedo Park. Membership fee: Gentlemen, \$15.00 per year; Ladies, \$10.00 per year.

The Turner Valley Gas and Oil Field, in process of development, contains several wells producing gas and oil. Gasoline is extracted from the wet gas, and some of the gas, after treatment, is piped to Calgary for domestic uses. This field is within easy reach of Calgary, and offers a fine auto trip.

The Imperial Oil Company has erected, at a cost of \$4,000,000.00, a very large modern oil refinery in Calgary, situated in the Ogden district. This plant is worthy of a visit.

#### **SURROUNDING COUNTRY AND RESOURCES**

Tributary to Calgary is a most prosperous agricultural, beef raising and ranching districts in area some thousands of square miles, and by virtue the nutritious and abundant grasses growing throughout the surrounding territory, cattle raised in this locality are of the best; and by reason of its favorable climate and fertility of the soil, grain and vegetables produced in this district are excellent.

#### **IRRIGATION AND FARMING**

Calgary is the headquarters of one of the largest irrigation projects in the world. Water for irrigating the fertile belt stretching from Calgary, north, east and south, is obtained from the Bow River. The head-gates of the main canal are located inside the city limits.

In the agricultural world Calgary, being the centre of thousands of acres of both irrigated and non-irrigated lands famous for spring, fall and winter grains of all kinds, vegetables and wild and cultivated grasses, is highly attractive to prospective settlers and investors. As a direct result of this location and the productivity of the surrounding areas, a "Grain" or "Stock" Exchange and a large stockyard and packing plant were established some years ago. Calgary's importance as a grain centre has been officially recognized by the Government of the Dominion of Canada and the said Government has built a terminal elevator in this city (see index "Elevator").

#### **RAILWAYS AND MARKETS**

With three transcontinental railways operating into the city, and other branch lines projected, Calgary offers the wholesaler and the retailer great facilities for trade throughout the whole of the Dominion. This, coupled to an ideal location in the heart of a rapidly and ever growing market, in the centre of tributary lands containing bountiful supplies of raw materials, places Calgary conspicuously before the prospective manufacturer.

#### **MINERALS, ETC.**

Untold mineral wealth underlays the soil, waiting for time and invested capital ere an idea can be conceived as to the intrinsic value and the benefits which accrue to Calgary, Canada, and the British Empire therefrom. Chief among the minerals and other products of the lower stratas of the earth, found in the Calgary district are iron, lead, coal (bituminous, lignite, anthracite and coking), silicate sandstone, brick clay and shale, pottery clay, fire clay, etc. Oil of a high grade was, on October 7th 1913, struck at a depth of 1,562 feet in a well on Section 6, Township 20, Range

2, West of the 5th Meridian, and now known as "Discovery Well" and since, in fairly good quantities in at least two other wells. Natural gas is also obtained from these wells, and when treated yields gasoline in payable quantities. The gas (after the gasoline has been extracted) is now "piped" to Calgary gas consumers. Wells are still being sunk.

#### **HOSPITALS AND ADMINISTRATION OF**

The Hospitals of Calgary, which were hitherto managed by private interests, are now administered by the City as a public utility.

In December, 1918, the electors voted for Civic Administration of Hospitals. The change in control took place April, 1919.

The General Hospital, instituted October, 1890, incorporated November, 1890; New Hospital opened February 1st, 1910, and since added to, with 220 beds present capacity, and which prior to April, 1919, was under the control of a private Board, is now administered by the city, together with hospitals to take care of the following: small pox (6 beds); isolation (85 beds).

There are in addition to those above mentioned a number of privately owned hospitals and nursing homes, the chief of which is the Holy Cross Hospital.

Mountview Hospital—Chronic tuberculosis, Sixteenth Avenue N. E.

Smallpox Hospital—Sixteenth Avenue N. E.

Isolation Hospital—Contagious disease, Twelfth Avenue and Sixth Street East.

A training school for nurses is part of the General Hospital (Est. 1895). Course of instruction, three years.

Superintendent of Nurses—Miss S. Macdonald.

Gradual progress is being made towards tax-supported hospitals.

Rates have been revised and a Diagnostic Clinic instituted.

The Case Room is free to maternity patients, and the X-Ray, Pathological Department and Operating Room to people housed in the hospital for treatment. Fees are as low as possible, with extra charge to country patients.

The hospitals are training centres for nurses.

Finances are obtained from city taxation, certain provincial government grants and patients fees.

The government grants for 1921 to municipal hospitals totalled \$45,600.00. For rates, etc., see index "Hospitals".

The Dominion government completed and opened in the year 1920 a large modern sanatorium for the treatment of incipient tuberculosis cases.

This institution is within a short distance of the Bowness line of the Municipal Street Railway at Keith, 7 miles west of the city, and was originally designed to care for returned soldiers, but has so developed that civilians are now also treated.

#### **LIBRARY**

Those of our Citizens possessing literary tastes may, on becoming members of the Calgary Public Library, have access to various works of literature by the World's best authors. A short review of the history of the Calgary Public Library appears in another portion of this book.

#### **CHARITABLE INSTITUTIONS**

The unfortunate, destitute and needy are cared for by the Board of Public Welfare, and food, coal and

clothes are provided those asking for help, and work for same if able.

The "Children's Aid Department," hereto financed largely by the city and controlled by the Provincial government, is now a department of the City, and as such is administered by the City Commissioners. For particulars re "Juvenile Court" see index.

#### **MUNICIPAL OWNERSHIP**

Calgary is essentially a city owned and operated for its citizens' benefit through their elected representatives, and owing to this fact its inhabitants enjoy a service from the various municipal undertakings seldom equalled. Having decided in the year 1900 that municipally-owned utilities were for their best interests, as a first venture the then waterworks system was purchased from the private company operating it, and steps were instituted to remodel and modernize the system. Success attended this venture and demonstrated to all that municipal ownership could, when properly administered, be successful, and accordingly in due course electric light and power, street railway and asphalt paving plant system and a public market were successfully instituted.

The Municipal Public Market furnishes an ideal medium of exchange as between the producer and the consumer. Write to the Market Superintendent for details.

Calgary has clean and well paved thoroughfares, beautiful residential districts, and business buildings, giving remarkable evidence of substantial growth. Municipally-owned utilities—particulars of which may be found in this publication—educational buildings, school system, and above all, its healthy climate.

A large and modern reinforced concrete bridge spans the Bow River at Centre Street, Calgary; a bridge of similar construction links the northern and southern banks of the Elbow River at Fourth Street West, and a similar bridge is being erected across the Bow River at Ninth Street West.

#### **METHOD OF CIVIC GOVERNMENT**

The "Initiative, Referendum and Recall" is in operation in Calgary. By this means legislation may be initiated by the ratepayers, elected officials recalled or a referendum demanded on any public question or policy. It is necessary to obtain the signature of a number of qualified voters equal to 25 per cent. and 10 per cent. respectively of the number of votes cast at the last election for mayor before these powers may be invoked.

The government of the city is carried on under powers granted by the legislative Assembly of the North west Territories and amendments thereto from said body, and later from the Provincial Legislature of Alberta. The council is composed of a mayor and 12 aldermen. The mayor is elected annually by a vote of the electors of the city at large.

#### **CONTINUITY OF COUNCIL, ETC.**

In order that some members of each year's council may be on intimate terms with the city's business, the aldermen are now elected from the city at large to a two-year term of office, six aldermen retiring, in the ordinary course of events, on December 31st of each year. The transition from one to a two-year term of office was accomplished in December, 1913.

A commissioner is elected annually on a vote of the electorate of the city

to hold office for a term of two years. The public and separate school trustees are also elected annually from a vote of the entire city, the number of members to be elected each year being determined by vacancies on the respective boards. The number of members composing the Public School Board is 7 and the Separate School Board 5.

#### **QUALIFICATIONS FOR MAYOR, ETC.**

The mayor is the chief magistrate of the City. Persons eligible for election as mayor, Commissioner, Aldermen, Public or Separate School Trustee must be British subjects, male or female, of the full age of 21 years, and who are not disqualified under the ordinances incorporating the City of Calgary.

#### **ELECTIONS, NOMINATIONS AND VOTING**

All elections for officials are held under the "Proportional Representation System," which was finally adopted by the City in the year 1917.

The nominations are held annually on the first Monday in December, and the election on the second Wednesday following. The hours of polling are from 9 a.m. to 8 p.m. and "the persons qualified to vote in the above connection are those persons, male or female, 21 years of age or over, whose names appear on last revised assessment role, or resident British subjects, male or female, 21 years of age or over, who have resided continuously in the City for at least six months prior to the 1st of June in the year the voters' list is being prepared, and who register during the month of June or July in each year their names at the City Clerk's office." If registered British subjects vote at an election their names are added to the Voters' List for the year following such election. Qualifications for voting on by-laws, same as above but owners of real property only, to the value of \$100.00. or more.

#### **COUNCIL'S DUTIES**

The Council as a whole is the legislative body and carries on the legislative work through standing committees in the usual way.

#### **COMMISSIONERS' DUTIES**

The Board of Commissioners is the executive body and as such regulates and supervises expenditures, directs and controls departments, nominates all heads of departments, Comptroller excepted, prepares specifications and estimates, advertises for tenders for work, materials and supplies required, inspects and reports to the Council on the municipal work being carried on or in progress within the City; administers the affairs of the City, except schools.

The Aldermen receive no remuneration for their services, the electorate refusing to authorize same in December, 1920, but the Mayor and Commissioner receive a salary of \$5,000. and \$4,000 per annum respectively.

Calgary's form of municipal government (Commission with Council) has proven in this City of large municipally-owned utilities and undertakings to be a safe and sane method of administering the community's affairs, as the Commissioners cannot legally act on important questions, or incur expenditures over \$500.00 before submitting the facts, policies and recommendations to and receiving the Council's instructions.

The Commission form of Government has its inception, in so far as

Calgary is concerned, in 1907 the Commission then consisting of the Mayor, City Clerk and City Engineer, said Board being appointed by the City Council. After a brief trial this Board was found to be unsatisfactory, as no matter what good policies the board might institute or desire to initiate, at least two of the members were not in a position to uphold their policies against possible opposition.

The afore-described Board was supplanted in 1908 by a Commission consisting of the Mayor (chairman), and two Commissioners, the latter two appointed by the Council. Our citizens and electors deemed it their privilege to say as to whom should administer civic affairs and the Council adopted the policy of holding a plebiscite, the two names submitted for the office of Commissioner and receiving the highest number of votes to be appointed by the Council. This method in 1913 gave way to straight election of Commissioners.

The electors at the Municipal Elections held in December, 1918, declared by a large majority to retain the present form of Municipal Government, and in December, 1921, to be in favor of reducing the Commissioners to two, one of whom is the Mayor.

A Board of Commissioners, acting with a Council, is considered by many to be the ideal method of City Government, as the Commissioners cannot legally act (except in minor instances) before submitting the facts, policies and recommendations to the Council and receiving the endorsement of the said Council.

#### **ASSESSMENT, TAXES, BOARD OF BUSINESS ASSESSMENT AND TAX, REVISION**

1922

General and Business Tax Assessment Rolls compiled in the fall of each year for use after confirmation by the Board of Revision for taxation purposes, etc., during the following year.

The Board of Revision consists of three members appointed by by-law of the City Council and sits each year to hear appeals against assessment or non-assessment and to revise and confirm both assessment rolls. Appeals against assessment or non-assessment must be in the hands of the City Assessor at least five days before the first meeting of the Board of Revision. The Board of Revision on business assessments usually sits on January 20th, and on real property assessments on February 9th. Assessment notices giving particulars for the succeeding year and covering the whole City are mailed on December 31st. Every property owned and those liable for business tax should secure this notice of assessment, and if dissatisfied with the valuation placed thereon should appeal at once in writing to the City Assessor giving the assessment number and reasons for appeal.

On purchasing property you should appear at the Assessor's office and present for his information the Agreement of sale or title. If a non-resident, write the Assessor.

#### **REAL PROPERTY (General Tax)**

After the assessment roll for real property is finally revised and confirmed, usually in February of each year, and the estimated net expenditure to be raised by the general tax is fixed by Council, the tax (mill rate) is struck as follows:

Estimated expenditure (less utilities and revenues from sources other than the general tax) multiplied by 1,000, divided by real property assessment (including special franchise and excluding business tax assessment) equals number of mills constituting the tax rate. (A mill is \$.001).

Each dollar assessed and taxed on the "Real Property" tax rate must pay the mill rate as above determined.

The Council by-law, fixes the dates up to which certain discounts on general taxes paid, may be secured. For 1922 it is proposed that the dates be June 20th, 10 per cent.; July 20th, 8 per cent.; August 20th, 6 per cent.; September 20th, 4 per cent.; October 20th, 2 per cent. From and including October 21st to December 31st, 1922 taxes will be payable at par. After December 31st, 1922, a penalty of two-thirds of one per cent. (added the first of each month), is imposed on 1922 taxes unpaid and if 1922 taxes are not paid prior to July 1st, 1923, the property upon which the taxes are due is liable for sale at the yearly tax sale.

Tax notices, giving details of the mill rate, general and special taxes due arrears, penalties, discounts, etc., are then mailed. Taxes are due on demand. No discount is allowed on special or Provincial taxes.

"Special taxes" are invariably "Local Improvement" and "Frontage taxes," such as for sewers, paving, sidewalks, boulevards curb and gutter, grading, gravelling, water mains the cost of which is chiefly borne by the properties fronting or the district benefitted. The Provincial Tax is levied by the Province of Alberta.

The Business tax first became operative in 1916 and the provisions governing have been amended as necessary from time to time. All businesses, trades, professions, etc., must be assessed each year for a sum equal to the full amount rental of their business premises, whether land or buildings or both, provided, however, that if such assessment is not equal to those of surrounding similar places and businesses, the assessment may be raised or lowered to make all assessments affected equitable. After the Business tax roll has been revised and confirmed and the Council has set the rate and discount periods tax notices demanding payment of the Business tax, giving particulars of the amount due, discounts, etc., are mailed. A discount of 3 per cent. is allowed if paid before March 31st, distress warrants may be issued if taxes are unpaid by April 15th, 1922. The tax rate on all businesses is 10 per cent. As license fees are now based on the cost of supervision by the City, no rebate is given off Business tax on account of any license fee paid to the City.

#### **VOTERS' LIST**

The fact that you have paid taxes does not qualify you for a vote. See that your name appears on the Voters' List to be seen in the City Clerk's office. This matter should be attended to prior to the 1st of August in any year. An elector is entitled to vote once only at any election on the same question, and must vote at the booth noted on the Voters' List for such elector. Only qualified electors whose addresses are given as in Calgary, are entered on the Voters' List.

### TAX SALE

In the year 1919, the Provincial Legislature passed a law which provided that a Tax Sale must be held each year in every Municipality throughout Alberta.

All properties upon which the taxes for the previous year remain unpaid on July 1st of the following year and which are not protected by partial payments made before this law became effective must be placed in the Tax Sale.

The up-set price for properties offered at Tax Sale is the taxes plus penalties and costs chargeable, unless the City takes advantage of a provision in the Act which permits of a minimum value being fixed on any property, which minimum may be less than the amount of the taxes etc., due. The minimum so fixed must, however, be accepted by the City as payment in full by the purchaser, the difference between the minimum value and the taxes, etc., being recoverable by suit. The City to date has not adopted the policy of fixing a minimum.

Properties not sold to private parties at a Tax Sale are considered as "knocked down" to the city.

One year is allowed from the date of sale in which to redeem by the payment of all taxes, etc., any property which has been sold for taxes.

### TAX EXEMPTIONS

The Dominion and Provincial Government, Public and Separate School Boards, Incorporated Colleges, (on lands and buildings used for school purposes), Church buildings and Church lands (up to one-half acre); all are exempt from General taxes but are liable for Local Improvement taxes.

The C. P. R., by their Act of Incorporation claim exemption from General and Local Improvement taxes on their right of way, buildings thereon, and on all lands owned by them for a period of twenty years, (unless previously sold and occupied) from date of patent.

### MUNICIPALLY-OWNED INDUSTRIAL SITES

Calgary offers to manufacturers industrial sites owned by the Corporation at the cost price. These are located in various parts of the City and the first were purchased in 1911 to provide for industrial development.

"Manchester," within the southern limits in the City, situated on the Calgary-Lethbridge branch of the C. P. R. is offered manufacturers desirous of locating in Calgary, on the following terms:—

Street cars, sewer, water and electric light and power are extended to and in use in "Manchester." This property is approximately two and one-half miles from the Post Office. Applications for sites should be addressed to the City Clerk.

1. Cost price \$1,200.00 per acre; one-third cash, balance in equal instalments divided over a term agreeable to the purchaser, up to six years, with interest at 6 per cent., payable annually.

2. (a) The purchaser or purchasers must agree that all buildings erected on land bought by them shall conform to the requirements of the second-class fire limits of the City.

2. (b) To use the land for 10 years from the date of purchase for manufacturing purposes only, and after 10 years for the same purpose until otherwise allowed by by-law of the City of Calgary.

2. (c) To begin building operations on the land purchased within six months from the date of purchase and to complete the buildings within a reasonable time, and if the purchaser or purchasers fail to carry out this provision the agreement shall be void and the land revert to the City.

2. (d) That he or they shall not assign or sublet without the consent of the Council of the City of Calgary.

2. (e) To pay the City of Calgary its proportionate share of the rental of the main spur or spurs constructed to serve the subdivision.

Two miles east of the City limits and about five miles from the Post Office lay other industrial sites. This property is served by the Canadian National Railroads.

The City also owns several blocks of land in the subdivision known as Calgary Junction.

Another site within easy reach lies about two miles northeast of the Post Office. The Calgary-Edmonton branch of the C. P. R. runs through this property.

The City has power to limit the assessment on lands used for manufacturing purposes to \$5,000.00 per acre until January 1, 1923, and to exempt from Taxation buildings, improvements, machinery and stock being used on said land subject to a by-law providing for such limited assessments and exemptions being ratified by the people as in the case of a money by-law.

The above clause does not mean that the industrial concerns are exempt from Local Improvement taxation.

If the aforesaid lands, buildings, stock or improvements cease to be used or occupied for the purposes aforementioned such land, etc., so ceasing to be used or occupied shall be liable to taxation in the usual manner.

### DOMINION GOVERNMENT ELEVATOR

Calgary, Alberta

Office—East Calgary.

Manager—J. Bennett.

The Canadian Government Elevator of Calgary is a reinforced concrete terminal elevator of 2,500,000 bushels capacity. This interior terminal elevator, together with similar elevator of 3,500,000 bushels capacity each, at Saskatoon and Moose Jaw, Sask., were constructed by the Board of Grain Commissioners for Canada to operate in conjunction with the Board's Lake Terminal Elevator at Port Arthur, Ont., and with the Board's Ocean Terminals at Vancouver, B. C. The purpose of the Calgary elevator is to provide storage and cleaning facilities for grain grown in the Province of Alberta, and to act as a reservoir for shipments to the East via the Great Lakes, or more especially for shipments westward to Vancouver, where it may enter the trade routes of the Pacific, or of the Atlantic via the Panama Canal.

The Calgary elevator will be a great boon to the farmer during a period of congestion in transportation and, possessing as it does the most up-to-date facilities for treating damaged grain, will prevent grain going out of condition on account of excess moisture while in transit.

of city limits. Area 80 acres.

## PUBLIC LIBRARY

Central Library—2nd St. W. and 12th Ave.

## Hours of Opening

9 a.m. to 9.30 p.m. (9 p.m. April to September), Wednesdays, 9 a.m. to 1 p.m.

The Library is closed on Victoria Day, Dominion Day, Labor Day, Christmas Day, New Year's Day, Good Friday and Thanksgiving Day

## Membership Privileges

Any citizen of Calgary is entitled to a free membership on signing application card, proving his address and furnishing the names of two friends.

## HISTORY

It is about sixteen years since a little group of Calgary citizens began to interest themselves in securing for Calgary a Public Library. Calgary was at that time a city of only about 15,000, and it took time for the scheme to mature. However in 1908, a Library Board was formed; in 1909 the building was begun, and on January 2nd, 1912, it was opened to the public.

The building and equipment has cost \$100,000.00. Of this sum \$80,000.00 was provided by Mr. Andrew Carnegie and \$20,000.00 by the City Council.

It is noteworthy that this Library was the first public library in Alberta and the second between Winnipeg and the Rockies.

## Constitution

The Calgary Public Library is administered by a Library Board of seven members, the Mayor being an ex-officio member, and the remaining six being appointed by the City Council for two years.

The Library is organized under the Provincial Libraries' Act, which empowers the City to levy a library rate not exceeding one mill on the dollar on all assessable property.

The Board at present consists of the following:

J. McCaffary, (Chairman), Geo. H. Webster, Mayor, Dr. A. M. Scott, Dr. T. H. Crawford, Mrs. Wilbur Horner, Mrs. E. P. Newhall, R. H. Parkyn Librarian and Secretary-Treasurer—Alexander Calhoun.

## Book Collection

The library has now 40,000 volumes in its various departments, over 35,000 being available for lending purposes.

### Reference Department

The reference library is a separate collection of over 4,000 volumes of books of reference and bound periodicals.

This department is designed to meet the needs of students and workers in every field who need special data of any kind. Telephone or mail inquiries receive prompt attention. Special lists of the best books and articles on any subject will be prepared at any time by the reference librarian, who gives all her time to this work.

### Technical Reference Department

The works of Technical Reference form a separate department. Here also will be found technical books for loaning, and the best technical magazines covering Engineering, the Trades, Commerce and business.

### Children's Department (Upper Floor)

This department is a separate collection of 4,000 carefully selected volumes, under the supervision of a specially trained children's librarian. Children up to fourteen are eligible for membership.

### Lecture Hall

A small lecture hall is on the upper floor, seating 100 and equipped with a splendid lantern. This room as well as several others is available at a nominal fee for any educational purpose. It is in constant use.

### Crescent Heights Branch

The library has one branch at 1806 First Street N.W., with a collection of 4,000 books.

### CALGARY MUNICIPAL STREET RAILWAY

(Operated by the City Commissioners) Offices and Car Sheds—2nd St. E. bet Victoria Park and Elbow River. Began operation July 5th 1909. Superintendent—R. A. Brown

The City of Calgary on July 5th, 1909, with 35,000 population, successfully inaugurated a municipally-owned and operated modern street railway system.

A \$250,000.00 by-law was passed in 1907 and one for \$226,000.00 in 1909, providing for the building, etc., of the street railway system.

With twelve modern pay-as-you-enter cars the first six months' operations returned operation and interest charge and \$10,000.00 surplus for contingent account.

Construction was begun in September, 1908, and one-half mile of track was laid that fall. On May 1st 1909, work was recommenced. The power generator arrived July 1st, and the first two cars on July 2nd. The Railway officially opened at 8 a.m., July 5th 1909, with two cars covering the half-mile between City and Fair Grounds.

During Fair Week 35,460 passengers were carried.

Work was carried on by five paving contractors, one track construction company (on unpaved sections only), the City doing all special and overhead work and intersections.

One-man cars were introduced on all city lines in 1917, and are proving satisfactory. Safety of operation is secured, together with a substantial decrease in the cost of operation.

All the line feeders within the business area have been placed underground.

At present power is supplied by four substations with two 500 k. w. direct driven steam units as an auxiliary, and one 300 k.w., and three 1,500 k.w. motor generators.

Power supply. See Index—Electric The Power Department of the City charges the Street Railway for power as follows: 1c per k.w. hour for first 400,000; all over 400,000;  $\frac{3}{4}$ c per k.w. hour; \$2,300.12 per month overhead charges.

### Fares

Five classes of tickets are used:—"School," good to and from school for adults and any time for children, 8 for 25 cents; "Ordinary," 18 in book form, \$1.00; 4 for 25c; and pads of civic employees' tickets, 20 for \$1.00, the latter are charged to the departments in which they are used. On Market Days a "return from market transfer" is granted free.

### CEMETERIES

Roman Catholic Cemetery—South of

Elbow River over Mission Bridge

Union Cemetery—2nd St. E. nr. 26th Ave. (south of Elbow River over Victoria Bridge)

Jewish Cemetery—Near Union Cemetery

Chinese Cemetery—Adjoining Union Cemetery south of Elbow River over Victoria Bridge.

## Associations and Societies

### CALGARY BOARD OF TRADE

General Offices: Loughheed Building  
606b 1st St. W.

## CARBON

a P.O. and village situated about 70 miles northeast of Calgary and about 20 miles west of Drumheller on the Acme-Empress branch of the C.P.R. On account of its location Carbon is bound to be the most important point on this new line. The village is situated in the centre of a rich farming district especially adapted to raising wheat and also suitable for mixed farming. The Carbon coal fields are famous in southern Alberta as coal was hauled from Carbon to Calgary long before other fields were developed. Owing to the lack of transportation facilities, coal mining in the district in recent years has been only for the purpose of local trade, but now that the railroad is completed mines are opening up all along the line. Carbon district is also favored with other natural resources such as deposits of clay tested suitable for fire bricks and face bricks. Has Presbyterian and Plymouth Brethren Churches. The financial condition of the village is good, there being no debt on either the village or the School District of Carbon. The tax rate is comparatively low and fuel is cheap. There is also an abundance of good water and a local electric light plant. Up to the tenth grade is taught in the local schools. The population of the village is about 550.

**CARDIFF JUNCTION**

a junction point on the C.N.R. with  
Athabasca branch, 11 miles north of  
St. Albert and 2½ miles west of Car-  
diff, which see.

**CARDSTON**

Cardston is an incorporated town of  
some 1600 population located at the  
terminus of the Lethbridge-Cardston  
Branch of the C.P.R., 67 miles south-  
west of Lethbridge (56 miles by auto-  
mobile), 13 miles north of the Montana  
boundary, and 24 miles east of Water-  
ton Lakes Park in southwestern Alber-  
ta. It is on the crossroads for three  
National Parks, viz., Waterton Lakes  
on the west, Banff lies within 246 miles  
north, and Glacier National Park 25 mi-  
les south. It is strategically located  
so that all traffic from Glacier Park,  
directly north to Banff, and Waterton  
Lakes Park, passes through Cardston.  
From east to west all traffic from  
Waterton Lakes Park from the Cana-  
dian side to Glacier National Park in  
Montana, passes through Cardston be-  
cause of good roads and shorter dis-  
tances. The outstanding, special attrac-  
tion is the \$1,000,000.00 Latter Day  
Saint (Mormon) Temple, which has been  
visited, up to date, August 31st, 1923 by  
more than 60,000 tourists the last three  
seasons. Cardston has a Dominion Cust-  
oms House; C.P.R. Telegraph Station;  
Alberta Government Telephone with  
continuous service; Alberta Government  
Court House; Municipal Hospital, com-  
modious school and High School; 8-acre  
Athletic Park in the heart of town; 40-  
acre Agricultural Park and Fair Gro-  
unds; the largest Co-Operative Cream-  
ery in the Province; 150-barrel flour  
mill; 4 elevators, 4 churches; \$100,000.00  
Municipal Gravity Water system, and  
electric light plant, and some 70 busi-  
ness houses, 23 school districts; 13 rural  
post offices are tributary to, and a sur-  
rounding population of 5,000 people trade  
into Cardston. Opportunities are offer-  
ed to mixed farmers, manufacturers,  
stock men, tradesmen, and investors.  
Dairy farming land and stock farms  
range in price from \$15 to \$25 per acre,  
while wheat lands and well improved  
farms from \$30 to \$50 per acre. Rain-  
fall average, 19½ inches, altitude, 2,860  
feet. To see Cardston is to learn so-  
omething!

**CASTOR**

a P.O. and town on C.P.R., 187 miles  
northeast of Calgary, 170 southeast of  
Edmonton, 85 east of Lacombe, 35 east  
of Stettler, and 22 miles west of Cor-  
onation. C.P.R. agent, C.P.R. telegraph,  
Govt. telephones, Dominion Express,  
rural mail routes and excellent roads.  
The Government Highway runs through  
Castor. Four churches, \$28,000 stone  
public school, separate school, \$12,000  
town hall, \$50,000 Catholic brick hospi-  
tal, large deposits of good lignite coal,  
there being three mines within a radius  
of one mile of the town, supplying to  
the citizens and district at \$3.00 a ton  
at the mines.

There is an abundance of sandstone  
and brick clay in the district.

Castor is located in one of the best  
mixed farming districts of Central Alb-  
erta, growing No. 1 hard wheat, oats,  
barley, flax, broom and Western  
rye grass, potatoes and garden veget-  
ables in abundance. Sunflowers and  
silos make feed shortage unknown. Crop  
failures in Castor district are also un-  
known. Land of beef and dairy cattle,

## CASTOR—Cont.

sheep, horses, hogs and poultry. Castor enjoys an excellent market for all farm products, having a daily train service both east and west and being within 6 hours' run of both Calgary and Edmonton.

The Dominion Soldier's Settlement Board has chosen a settlement area near Castor because of the remarkable value and cheapness of the land.

The district around Castor is the sportsman's paradise, there being an abundance of wild geese, ducks, prairie chicken and partridge.

Castor has real live business men and an excellent class of citizens in the town and surrounding district.

Further and more specific particulars along any line will be given by the Secretary of the Board of Trade.

Population 750.

**CHATEAU LAKE LOUISE**

a P. O. (June 1 to Sept. 30), summer and hotel resort, 3 1/2 miles from Lake Louise on the C.P.R. It stands 700 feet above the village of Lake Louise, and is reached by a small grade railway from main line. (See listings under Lake Louise).  
 de Rouville Chas L postmaster

**CHAUVIN**

is on the C.N.-G.T.P. Ry. gateway to Alberta, situated midway between Saskatoon and Edmonton, in a rich belt of fertile rolling prairie, well watered, admirably suited for mixed farming. The country is well stocked with horses, cattle, pigs and poultry, many farmers being already well established in raising pure bred varieties. The volume of grain, stock and dairy, shipments is increasing each year. Last year one train of forty-three cars of live stock was dispatched direct to Winnipeg and Chicago stockyards. Other business being cared for by three grain elevators, stockyards, flour mill, oil warehouse, 3 lumber yards, hotel and 2 restaurants, 2 lawyers 2 real estate offices, municipal offices, 2 stock buyers, 4 cream buyers, egg circle, butcher, 3 general stores 2 hardware, 2 garages, printer and publisher, 2 livery stables and other business activities. There are two churches Roman Catholic and Presbyterian, with established rural points of regular services, high school and elementary schools organized throughout the entire district and rural phones extending rapidly. Civic and community affairs are well maintained by the activities of the village and municipal councils. Board of Trade, Agricultural Society, U.F. A. and U.F.W.A., Women's Institute and other organizations. The Masonic Oddfellows and Rebecca Order have

### CHAUVIN—Cont.

good strong lodges.

Adjoining Chauvin is a forty-acre park, providing for sports, exhibitions and race track, this being joint property of the village and agricultural society. Six miles west of Chauvin is located Salt Lake, becoming very popular as a boating and pleasure resort, its saline waters possessing health-giving qualities. Manitou Lake, some ten miles long and four miles wide, also provides boating and hunting in season. The new Alberta Government road from Saskatchewan to Edmonton passes through Chauvin.

The farming land in the vicinity is of a very fertile nature, and can be obtained from \$20 to \$40 per acre. Population 300.

Further particulars can be obtained upon application to

## CLARESHOLM

An incorporated town of 1,200 population, situated on the C. P. R. Calgary-Macleod br. nch, 8½ miles south of Calgary, and 26 miles north of Macleod. The district surrounding the town is entirely a wheat-raising district, and is known to be one of the best in the Province in that industry. The town is also the largest and most central in the Provincial Electoral District (after which the district is named), and besides being a shipping point for a very large amount of grain each year, it also has the advantage of being one of the points at which is located a Provincial School of Agriculture and Demonstration Farm. Just recently the Dominion Government purchased a section and a half of land about 7 miles west of the town for the purpose of establishing an Indian Industrial School, which is now taking shape and expected to be in operation within the year. This school is directly tributary to the town, and in addition to the above educational facilities the town itself is not behind in any respect, having two school buildings (public and high) and employing eleven teachers, including music, with an enrollment of 350 pupils, of which 90 are high school pupils, and in these schools everything is taught from the primary to the twelfth grade.

Both schools are of brick, steam-heated and well ventilated, and occupy a commanding site at the north end of the town, with ample recreation ground surrounding them.

The town has also within its boundaries six churches—Anglican, Roman Catholic, Lutheran, Nazarene, Presbyterian and Methodist (the latter two of which are now being in course of amalgamation), and besides which there is a Mormon church about 4 miles south.

The Canadian Pacific Railway have erected here a fine stone station house and give a service of four passenger trains daily (except Sunday), two north and two south.

The town boasts of having six elevators, three garages (up-to-date in every respect), two banks, two blacksmith shops, three lumber yards and a flour mill.

If you wish to take up golf just about a 15 minute auto trip west of town will take you to one of the finest golf courses in sunny Alberta, and when tired of that visit the Cinema Theatre, fireproof and up-to-date in every respect, and with stage sufficient for legitimate plays, or visit the I.O.O.F. Hall for a concert or dance.

The town is supplied with gas by the C. W. N. Gas Company's line, and is also an important point for the Alberta Government Phones.

The water supply for the town is pumped from Willow Creek, 6 miles west, filtered through a natural gravel filter, and is of the purest quality possible. Both this utility and the electric lighting system are municipally owned and are on a paying basis.

The town also boasts an up-to-date weekly newspaper, the "Clareholm Review," owned and edited by F. H. Schooley, and the hotel accommodation is second to none in the Province for a town of its size.

**CLUNY**

a P.O. and station on C.P.R. main line, in Bow Valley Prov. Elec. Div., 19 miles west of Bassano and 8 miles east of Gleichen. This district always produces a crop. Wheat shipped from this district in 1920 approximately was 1,300,000 bushels and 1920 was considered an average year. No land for sale in this district for less than \$45 per acre, and much has been sold for \$75 per acre. Shipping facilities are of the best, being on the main line of the C.P.R. There are good roads everywhere, bridges across the river, no ferries, six elevators in the town and four trains a day on railroad. Has Alberta Govt. telephones all through the country, schools, churches, private hospitals, public halls, etc., throughout the district. Population 250.

**COALHURST**

a P.O. and town 2 miles east of Kipp,  
 which is on the C.P.R. Crow's Nest  
 line and the nearest C.P.R. telegraph  
 and Dom. Express office and 7 miles  
 northwest of Lethbridge. In Lethbridge  
 Prov. Elec. Div. Stage from Kipp. Has  
 Alberta Govt. long distance, rural and  
 local telephones. Presbyterian, Catholic  
 and Pentecostal churches and two  
 schools. At the present time coal min-  
 ing is the principal industry. The North  
 American Collieries Ltd., owners Leth-  
 bridge Colliery, has daily capacity of  
 2,000 tons. Imperial coal is the output.  
 The district surrounding Coalhurst was  
 placed under irrigation in the fall of  
 1922 for turning on the water. The town  
 is very active at this time and the citi-  
 zens anticipate that the year 1924 will  
 show the town to be in the centre of one  
 of the best irrigated districts of South-  
 ern Alberta. The town has no bonded  
 debt and a low tax rate, pure water sup-  
 ply and electric light. Headquarters of  
 Provincial Police.

The business portion of the town con-  
 sists of five general stores, one hard-  
 ware store, one bank, one garage, one  
 blacksmith shop, one meat market, one  
 billiard hall, one moving picture theatre  
 and dance hall, one laundry, one barber  
 shop, one bakery two restaurants, a  
 general hospital and resident doctor.

The societies are represented by the  
 District Board of Trade, Community  
 Club, Odd Fellows, Rebekahs, Ladies  
 Art Needlework Club, Miners' Union,  
 and the Tennis Club. The Odd Fellows  
 own the finest hall in the district. Popu-  
 lation. 1200.

**CORONATION**

a P.O. and divisional point on the Lacombe-Kerrobert branch of the C.P.R., 220 miles northeast of Calgary, and 183 miles southeast of Edmonton, and situated in one of the best mixed farming districts in the province. Has C.P.R. agt C.P.R. telegraph, Dom express and Alta. Govt. telephones.

Coronation Public Utilities, consisting of electric light and power plant, waterworks and a twenty-bed general hospital, are giving good service and are self-supporting.

Coronation is a divisional point for both passenger and freight services, the C.P.R. maintaining a six-stall roundhouse with shops in connection; it is also a freight transfer point.

Four elevators of about 120,000 bushels gross capacity take care of the farmers' crops, and during 1919 over 14,000 head of beef cattle were shipped from this point, two solid trains being shipped one week to the Chicago market. Land in the Coronation district is cheaper for the quality and what it will produce than at any other point in the province. Improved farms selling at from \$20 to \$40 per acre, and more. One was paid for last year out of the first crop. Coronation is not in the dry belt. Population 300.

northerly direction gas has been found and is being used for domestic purposes by the farmer, Mr. C. E. Ecklin, on whose land the well is located. An incorporated company has been formed to handle further development. This Company is now drilling a number of shallow gas wells, with the intention this Spring of setting up a plant and manufacturing carbon black. Pure bred cattle are to be seen on a number of the farms in the district. There are five elevators which handled over one million bushels of wheat in the season 1923-24. The population of the village is approximately 300.

## DAYSLAND

an incorporated town, with a population of 400, is most advantageously situated near the centre of a large tract of choice agricultural land, which is steadily increasing in value as its worth becomes better known. The C.P.R. extended a line from Wetaskiwin to the townsite of Daysland in the fall of 1905 and this line has since become a port-

ion of their main line from Winnipeg to Edmonton. The town is 51 miles east of Wetaskiwin, and about 80 miles southeast of Edmonton. Not only the town, but the entire surrounding district is served by the Alberta Govt. Telephones, there being twelve rural lines and continuous service. There are chartered banks, Union, Protestant and Roman Catholic churches, a large hospital under control of the Sisters of Charity, and a good four-roomed school. The district is favored with a larger average of rainfall than even some others in the province, making it especially well adapted for mixed farming, including the production of wheat, oats, barley, rye, clover and grasses of all kinds, as well as root crops, while all kinds of live stock thrive remarkably well, and large shipments are made annually. A local creamery does a thriving business, while two cream buying stations ship to centralizing plants in Edmonton. The coal mines along the Battle River are within easy reach. Four grain elevators of full standard capacity are in full operation, one of them doing a large feed mill business. Population 400.

to growing oats and rye. We have not known a crop failure for the past eight years, and the shipment of over 800,000 bushels of wheat at this point last year will show the nature of the yield. Land values, especially in the northwest gumbo land, have taken a sharp advance the past year, improved farms selling for as high as \$60 per acre. We have shipped out the past year, 125 cars of cattle. One of the future prospects of Delia is the large deposits of coal that are found in every well that has been sunk in the village, and a company has now a coal lease on the village and intend sinking a shaft at once to open up the seam which they claim is the same strata as the Drumheller variety. Population 400.

## DIDSBURY

is on the C. & E. branch of the CPR, being about 50 miles north of Calgary and 146 south of Edmonton. C.P.R. Agent, Dominion Express, C.P.R. Telegraph and Alberta Govt. Telephones. Electric light plant is municipally owned and operated. Fine 6 room brick public school, including library, assembly hall and laboratory—worth \$45,000. Four-room brick High School, including office, gymnasium room worth \$20,000. The schools just mentioned are admitted to be among the best equipped schools in the Province. Hospital—run by adjoining country and town municipalities. Six churches of different denominations. The town has a good Gymnasium, Reading Room and Basket Ball, which is very beneficial for the young people of the town and district. A fine 50 room brick hotel, modern in every way. Flour mill, very large creamery, manufacturing butter, cheese and condensed milk. Besides this there are two large cream stations buying milk for Calgary dairies. Three garages—one being the best and finest brick garage between Calgary and Edmonton. Both the Union and Royal Banks have large branches in the town.

## DRUMHELLER

An incorporated town on the Calgary to Saskatoon main line of the Canadian National Rys., 85 miles east of Calgary. It is the chief town and centre of the now famous Drumheller coal mining district, and has been one of the fastest growing communities in Western Canada. Ten years ago the district was practically unknown, and it was only eight years ago that the railway first built through the valley, finding then two lone settlers. Today the same railway serves an approximate community population of over 12,000.

At first settled as a homestead, it was not long before prospectors coming in discovered that the hills encircling the Drumheller Valley had seam after seam of coal in them. In the fall of 1911, prospect holes were dug and the first carload of coal was shipped out the next year, 1912. Since then the coal output has increased until in the year 1921 the official figures show 1,400,000 tons of coal were produced, with a maximum output of 225 cars per day, and the amount paid in wages was \$4,000,000. With about 30,000 acres of coal land filed on, some of which has been opened up and more to be opened up, showing the Drumheller Valley has coal resources to supply the trade for the next 500 years. There are 30 mines now operating in the district, which last year produced a revenue of \$7,000,000. The coal is a very high grade domestic coal. Some of the largest mines operating in the valley are the Hy-Grade, the Atlas, the Monarch, etc. At Rosedale, 4 miles down the valley, is located the Rosedale Mine, one of the first mines to be opened up, and having a daily capacity of 5,000 tons. This mine constitutes one of the very finest coal mining camps in the west, employing about 750 men when running at capacity. The market for Drumheller coal covers the whole west, but it is also shipped to numerous prairie points as far east as Ontario. The coal mines in the valley are the most modern in every respect. The Rosedale Mine, the Hy-Grade Mine and the Atlas Mine are samples of the class of mines operated in this district, being equipped and lighted with electricity and are clean, airy, free from water and most comfortable for the miners to work in. There has been rapid railway development in the district. The building and completion of the C.N.R. to Calgary in 1913 and through to Saskatoon, has given the Drumheller Valley railway connections both east and west. The C.N.R. has in the past year greatly improved its terminal facilities here, extending the yard capacity to take care of the very large coal shipments that go out annually. The C.P.R. has extended its Calgary-Acme line into the Drumheller Valley.

Drumheller has not only had large development in the coal mining industry, but also along commercial lines. The town, commercially, is one of the most up-to-date in the west, having very fine stores of every kind, stocked with the latest merchandise, banks, lumber yards, machine shops, garages, hotels, churches, theatres, etc. The municipal hos-

pital, beautifully situated on the bank of the Red Deer River, is one of the most modern in Western Canada. It has throughout the most up-to-date equipment and appliances and is well and carefully staffed. The hospital is very valuable to the district, in view of the large number of men working in the many mines. Drumheller's New Memorial Hall just being completed, is another handsome addition to the town. It consists of two floors and basement. The basement will be occupied by the Y. M. C. A. with swimming pool, baths and gymnasium; the first floor will be public reading, writing and club rooms, and the second floor will consist of lodge rooms and dance hall under auspices of the G.W.V.A. for renting purposes. The town installed a water-works system and is intending in the near future to have sewers through the principal streets. Electric light and power is furnished to subscribers by a private concern, whilst coal is the chief product of Drumheller and district, the farming lands beyond and back of the surrounding hills, constitute one of the finest agricultural sections in the west, and large crops are the rule. A crop failure is unknown in a period of eight years, and the grain growers have had a very high average in bushels per acre grown. The population of Drumheller is about 3,000 in the town limits, with approximately 12,000 people living in the surrounding valley, and engaged in and around the various mines.

**EDGERTON STATION**

is situated 146 miles east of Edmonton,  
 about midway between Edmonton and  
 Saskatoon on the main line of the G.T.P.  
 and draws trade from an area of 15 to  
 20 miles. Has G.T.P. telegraph, Can-  
 adian Express and Alberta Govt. tele-  
 phone offices. Is a village of about 200  
 population, well represented in all lines  
 of business, has Protestant church used  
 by different religious bodies, three ele-

vators and a two-roomed school. The  
 district is populated with mostly Eng-  
 lish-speaking people of a very thrifty  
 nature. Land values from \$10 to \$30  
 per acre. The district itself is well  
 located naturally for mixed farming,  
 the grass being very luxurious for fat-  
 tening stock, part of the land being  
 rolling and part valley, making it a  
 good wheat and oat proposition.

## Assurance Co. of Canada

Head Office - Edmonton

Incorporated by Special Act of the Parliament  
of the Dominion of Canada

Licensed by the Dominion Insurance  
Department

The solvency of a company licensed by the Dominion Insurance Department is thoroughly investigated each year by trained auditors from the department. No policyholder of a Dominion chartered company has ever found his policy insecure.

One of the many stringent conditions required of companies with a Dominion license is a deposit of \$50,000. The deposit of the Commercial Life is in excess of that required by the Act.

Over and above this deposit, each Dominion chartered company is compelled to maintain reserves considered adequate to guarantee its ability to meet its obligations. These reserves increase with every dollar's worth of insurance written.

**Life Men** needing the impetus and enthusiasm of a new organization, with the prospect of highly remunerative positions of responsibility, are invited to correspond.

# City of Edmonton

Edmonton, the Capital of Alberta is located on the North Saskatchewan River about two hundred miles east of the Rocky Mountains. At this point the river is flanked by high banks covered with spruce and poplar, or by broad open flats which provide splendid sites for parks and recreation grounds. The situation is ideal from the standpoint of landscape beauty, and as wealth and population increase Edmonton will rank as one of the beautiful cities of North America.

Edmonton holds the key position geographically to about one-quarter of the area of Canada, comprising the Valleys of the Saskatchewan, Peace, Athabasca and Mackenzie Rivers, and the great hinterland of North-West Canada. The extension of the Canadian National Railways to Prince Rupert has added Northern British Columbia to this area as well as giving a short route for the products of the Prairies to the Yukon.

In the days of the fur trade many posts were built along the Saskatchewan River. Edmonton alone has survived and is developing into a great commercial metropolis because it is a natural trading centre. Ninety-five wholesale and jobbing houses are at present engaged in the distributing trade of the city. Its strategic position in Western Canada becomes more and more apparent as the city and the great territory it serves develops.

It is the meeting point of three trans-continental lines of railway, and the most important railroad centre on the Canadian National Railway System between the Great Lakes and the Pacific Ocean. There are over 1,650 Canadian National Railway employees who make their homes in the city. The annual payroll for these employees is over two and one-half million dollars. Over 3,000 freight cars are handled daily in and out of Edmonton by the Canadian Pacific and Canadian National Railways.

Edmonton lies opposite the lowest pass through the Rocky Mountains on the continent, and thus will draw through its gates the greater portion of the trade between Alberta and British Columbia, two of the richest provinces in Canada in natural resources.

The vast supplies of raw materials of the territory surrounding Edmonton form a basis for extensive manufacturing industries. The cost of living will always be reasonable because of the great production of food-stuffs: wheat, flour, meats, fish, poultry, eggs, butter, cream, cheese, milk and vegetables.

Edmonton is the centre of a great coal industry. Some forty-five coal mines are in operation within a radius of fifty miles of the city, several being within the city limits. The number of men employed in the various seasons of the year is over 1,400, and the annual production about one-and-one-half million tons. The payroll aggregates about two-and-one-half million dollars per year.

Beyond Edmonton, but well within its trading radius, lie the wonderful bituminous mines of the Mountain Park, Jasper and Yellowhead fields, producing annually about two million tons of

high-grade steam coal, and employing over 1,200 men. The market for these coals is steadily growing and Alberta coal is displacing American coal in Eastern markets.

Edmonton lies on the edge of one of the greatest natural gas fields in America. The field extends in a broad zone from the Peace River, north-west of Edmonton, in a south-easterly direction across the Province to the Battle River, and beyond to the inter-provincial boundary, a distance of over 300 miles. The city is supplied with gas from the Viking-Wainwright portion of this field, which lies about eighty miles east of Edmonton.

The Northwestern Utilities Company, Ltd., has constructed a pipe line from this field to the city. The Company has nine producing wells completed, with a tenth nearly completed. The estimated flow per well being 4,000,000 cubic feet per day with a rock pressure of 715 lbs. The area of the wells in question extends to 27 square miles which ensures a gas supply ample for the requirements of the city for at least a period of twenty years. Additional to this area, however, known as the Viking area, there is a further region known as the Fabyan, 30 miles South of the Viking area which promises to prove a still larger gas reservoir, so that the future supply of gas for the city seems absolutely assured.

While the aim of the Company is primarily to cater to the domestic consumer, to whom the use of gas appeals, it is anticipated that the supply is of such adequate proportions that manufacturing concerns will largely benefit by the use of the gas supply, the rate for which though at present fixed at 30 cents per thousand cubic feet, may subsequently be reduced so that the larger manufacturers may take advantage of the utility. Within the city the gas will be distributed from mains extending to seventy-five miles. The domestic rate is fixed for the present at 46½ cents per thousand cubic feet.

In the Edmonton Timber Agency there are twenty-seven sawmills operating under license and ninety-five small portable sawmills under permit. The lumber cut in the city in 1922 was about twenty million feet. During the past winter the log cut along the rivers and railways of the Edmonton District was about fifty million feet. About two-thirds of these logs are rafted down the Saskatchewan to Edmonton, or down other rivers to convenient points on the railways and hauled to Edmonton. On the west side of the Rocky Mountains, in British Columbia, a territory tributary to Edmonton, the log cut for the past season was about the same as in Alberta. The industry gives winter employment to about 3,000 men. In addition, there is a regular winter industry of cutting railway ties, lath, shingles and mine props, which gives the homesteader an opportunity of earning extra money. The complement of the lumber industry is found in several wood-working factories, manufacturing sashes and doors, dressed lumber, and other building supplies. Two box factories in Edmonton do a flourishing business.

The clays and shales of the District make excellent brick and tile. Several brick factories in the City and vicinity are being developed as the needs of urban and rural settlement require. West of Edmonton, at Marlboro, cement is made and finds a ready market in the city and throughout the Province. Some of the clays are very suitable for pottery and other ceramic products.

Flour milling was the first industry in Edmonton. It still holds an important place and has a prosperous future, particularly as a result of the coming development of the Western Grain Route. Famous brands of oatmeal are manufactured because of the unexcelled quality of Alberta oats. The manufacture of several cereals and mill feeds is beginning, with prospects of becoming a considerable industry.

This industry began in a modest way over twenty years ago and the pioneer firm, Gainer's Limited, has made substantial progress commensurate with the growth of the live stock industry. In 1907 the Swift Canadian Co. Ltd., a branch of Swift & Company, of Chicago, established the first big packing house in Edmonton. A few years later P. Burns & Co. Ltd., the great pioneer packing house of Alberta, followed.

These industries employ about eight hundred hands, and provide a market for thousands of cattle, sheep and hogs each year. The three packing plants have doubled their capacity and output the last ten years. Edmonton is well situated for this industry and a great expansion is inevitable. Side by side with the packing houses the Edmonton Stock Yards have been established. In 1922, 104,000 cattle, 76,000 hogs and 17,000 sheep passed through the yards. The total number of hogs handled by the stock yards and packing plants of the city reached the grand total of nearly 200,000 last year. Notwithstanding the low prices of cattle during the last season over four and one-half million dollars was paid to the farmers of the district for live stock.

During the last few years many new industries have sprung up in the city because of the ready supplies of raw materials, and because of the local demand created by a city and district of 400,000 people, and the possibility of meeting that demand by local enterprise and capital. Prominent examples are the manufacture of men's heavy clothing, women's and children's wear, iron, steel and sheet metal products, fence wire, furnaces, drugs, chemicals, brooms, cigars, soaps, candies, beverages, fur garments, boats and canoes. The success that has attended the establishment of these industries indicates the possibilities of industrial expansion in the City of Edmonton. The vast stores of coal and natural gas so easily available hold the possibilities of cheap power for manufacturing industries as well as the possibilities of several new industries growing out of the numerous by-products of the Edmonton coals. As the population of Edmonton and the rich district surrounding it increases, manufacturing opportunities will expand to meet the needs of a highly progressive community. Man-power and money-power applied to the natural wealth of Central Alberta will transform the province into a great industrial area equal to any other on the American Continent.

There are at the present time about 120 factories, large and small, which are all now on a permanent and successful basis. The next ten years will be much more favorable to the establishment of manufactures in the district than in any previous period. A factor to be considered in this connection is

that the population of Edmonton includes many people from the Old Country who are industrially trained and thus provide a supply of intelligent workers in new industries. By the last Dominion census the number of industrial employees in the city is placed at over 4,200, and the annual output of manufactured goods valued at \$32,000,000.

Edmonton is the seat of the Provincial University. The registration for 1922 in this institution was over 1,300 students. Degrees are granted in arts, science, agriculture, engineering, medicine, pharmacy, law and commerce.

There are over forty-eight Protestant public schools and eleven Roman Catholic separate schools, four high schools and the Technical high school. The school population has doubled since 1913, and is now 14,580. At the present rate of growth the School Board of Edmonton must build a new eight or ten roomed school every year. Other educational institutions that illustrate the importance of Edmonton as a centre of learning are Robertson Theological College, Presbyterian; Alberta Theological College, Methodist; St. John's Oblate College and Edmonton Jesuit College. For young women there are Westminster Ladies' College, Alberta College South, and four Roman Catholic Convents. Business and commercial training are given by the Commercial High School, (part of the public school system) and three business colleges, Alberta, McTavish and Elston.

Men's and women's clubs are represented by the various forms of organizations found in modern cities of the continent. Sports of various kinds are well organized. Of winter sports hockey is the most popular. There are literally scores of amateur hockey clubs in different parts of the city, while the Edmonton Hockey Team, professional, won the championship of Western Canada in 1923. Curling and skating rinks are found in every section of the city. Ski-ing, snowshoeing and tobogganing afford exhilarating and healthful exercise. The popularity of winter sports is the best testimony of our splendid winter climate. Tennis, soccer and baseball are the most popular games in summer. The Edmonton Rugby Team won the championship of Western Canada in 1921 and 1922. There are three golf courses in the city, and the game has taken a firm hold. Lawn bowling is growing in favor.

Basketball is popular, and the Commercial Graduates, all past students of the Commercial High School, hold the Championship of the World in Basketball, having defeated the Cleveland Favorite-Knits in Edmonton, June, 1923, Chicago Uptown Brownies and Warren National Lamps, October, 1923, with an average attendance of 6,000 people at each game of each series.

There are over eight hundred acres of public parks situated in different parts of the city, as well as several excellent children's play grounds. Two of these parks are provided with splendid swimming pools, which afford delightful recreation daily to hundreds of adults and children. The average attendance for the season is 1600 a day in each pool. A third pool is conveniently located in the West End residential district.

Several lakes in the vicinity of Edmonton provide excellent summer resorts and are easily reached by motor or by train. Summer tourists will find a camp site conveniently situated within the city.

The water supply is taken from the North Saskatchewan River through two 36-inch intakes into the pump station on the north bank of the river. At the

pump station there are two six-million gallons and one eighteen-million gallons low lift centrifugal steam-driven pumps, one six-million steam-driven centrifugal high lift pump, and two ten-million electric high-lift pumps. The pressure on the higher street level is from 40 to 45 pounds and on the lower river flats from 95 to 100 pounds, while at the pump station from 105 to 110 pounds is maintained. The pressure for fire fighting is raised by the Fire Department's own booster equipment.

The Filter Plant comprises sixteen Roberts Gravity filters of one-half millions gallons each, the sedimentation basin and two clear water basins.

The system stands capitalized at \$2,405,701.00, the annual revenue for 1920 amounting to \$429,141.00.

Today the system is comprised of 167 miles of 4-inch to 30-inch water mains, 11,729 water services, 813 fire hydrants. About 400 new services are being added each year.

The daily consumption of water averages 6,215,000 gallons, or a per capita consumption for all purposes of 95 gallons per 24 hours.

The Department is managed by a superintendent and office staff of 14, with offices on the second floor of the Civic Block, and an outside construction and maintenance gang under a general foreman.

About 80 per cent. of the services are on meter, the following tariff as revised being in effect on April 15th, 1921

**FORT SASKATCHEWAN**

a P. O. and town on S36 T54 R22 W4, on the main line of the C.N.R., 24 miles northeast of Edmonton in Victoria Prov. Elec. Div. Has C.N. express, G.N.W. telegraph and Alberta Govt. telephones. The Fort is one of the oldest towns in Alberta, in the early days having been a post of the R.N.W.M.P., at a time in the history of the West when Hudson's Bay posts with their traders, the Indians and the fur trappers, were the only inhabitants. The town still retains something of its ancient official character through the location there of the provincial jail, one of the most up-to-date and progressive institutions of the kind in the Dominion. The town has a good public and high school with an efficient staff and both Protestant and Catholic churches. The country surrounding here has, for a radius of twelve to twenty miles, been under cultivation for many years and has long since proven itself to be first-class agricultural land. As a consequence not only are the farmers of the district now in independent circumstances, having first-rate dwellings and barns with up-to-date equipment, but the land values, which are not too high, are as high or higher than anywhere in the province. \$125 has recently been paid for land within a few minutes' motor drive out of town, while from \$50 an acre is the ruling price. The land is all practically under cultivation, the district is free from hail, frost and drought, so that town and country as time goes on are bound to be most substantial financially, and from the nature of the residents, who are Canadian-English and French, with some Germans, will continue to be progressive and up-to-date. Population about 1,100.

**GLEICHEN**

a P.O. and important town of about  
 800 inhabitants situated on S13 T22  
 R23 W4, on the main line of the C.P.R.  
 56 miles east of Calgary. Has C.P.R.  
 telegraph, Dom. Express, Alberta Govt.  
 telephone offices, with rural telephone  
 lines extending throughout the district.  
 The town owns its own water, light and  
 sewerage systems. All mercantile lines  
 are well represented. Education by a good  
 graded school and the High School. Ex-  
 perimental Farm. Is the trading centre  
 of a prosperous wheat growing district  
 that has never experienced a crop fail-  
 ure, and has an annual acreage in crop  
 of 325,000 acres, has 5 elevators with a  
 capacity of 250,000 bushels, and is a  
 large shipper of cattle and horses. Part  
 of the district is under irrigation by  
 C.P.R. irrigation system. There is still  
 some raw land available, and is selling  
 from \$20 per acre upwards, according to  
 location. Improved lands are selling  
 from \$40 to \$90 per acre, according to  
 location and improvement.

### GRANDE PRAIRIE

Grande Prairie City itself would com-  
pare most favorably with the Edmonton  
of fifteen years ago with a population  
of well over 2,000. It has a modern elec-  
tric light and power plant and an ade-  
quate system of waterworks which affords  
efficient fire protection, together  
with both local and long distance tele-  
phone service. Four wholesale houses:  
The Revillon Freres Wholesale Limited,  
Kelly Douglas Limited, W. C. Pratt  
Wholesale and Crummy Brothers Lim-  
ited maintain large stocks at this point  
and distribute from local warehouses  
to all other points in the district. Five  
banks. Ten grain elevators with a total  
capacity of 310,000 bushels are located  
in the district, three of these being in  
Grande Prairie City, the remainder be-  
ing located as follows: Spirit River 2,  
Sexsmith 2, Clairmont 3. The retail  
trades are all well represented, as are  
also the professions. Local bakers, a firm  
of candy and confectionery manufac-  
turers, butter and dairy product mak-  
ers, and a firm of flour millers, each  
shipping to all parts of the north coun-  
try form a nucleus of what will become  
a large industrial centre as the country  
develops. Several large concerns are  
considering establishing local manu-  
facturing branches at the time of going  
to press, and investigations carried out  
justify the belief that the development  
which has taken place warrants the est-  
ablishment of those at the present time,  
while of the future there can be no  
doubt.

An abundance of coal, obtainable lo-  
cally, a low tax rate (levied on the  
single tax basis), electric current for  
light and power purposes, an adequate  
water supply and a rapidly developing

market, are features that should prove  
conductive to investigation.

The Imperial Oil Company uses it as  
the distribution centre for the district,  
and also as the base of the extensive  
operations being conducted in the Pouce  
Coupe country by the production de-  
partment of that corporation.

Several good hotels offer modern con-  
veniences to the travelling public and  
numerous auto liverys operate from  
the city to all points in the Grande  
Prairie, Pouce Coupe and Peace River  
Districts.

The governments (both Dominion and  
Provincial) Administrative Offices for  
the Grande Prairie Land District are all  
centralized in Grande Prairie City. Under  
this head is included: Dominion Land  
Offices, Timber Inspector, Soldier  
Settlement Agency, Immigration Hall,  
District Court Offices, and Court House;  
Alberta Provincial Police, district head-  
quarters: R.N.W.M.P. Depot, District  
Magistrates Office, Redistributing Post  
Office, Public Health Nursing Station,  
Government Telephone District Stores,  
etc., etc.

### BUILDING STATISTICS

In the year 1919 over a hundred build-  
ing permits were issued representing  
an expenditure of \$300,000, and in 1920  
there were sixty-five, representing an  
expenditure of \$220,000.

The developing of the varied resour-  
ces of the Grande Prairie District is  
destined to make it one of the most pro-  
ductive and populous areas in the Dom-  
inion, a province itself, while the young  
city bearing its name has already en-  
tered on a remarkable period of growth  
similar to that which was experienced  
in the early days by such cities as Win-  
nipeg, Regina, Calgary and Edmonton,  
and it offers the same golden opportu-  
nities which were then existent in those  
centres.

The Grande Prairie Board of Trade,  
incorporated as representative of the  
Grande Prairie Land District, is taking  
an active part in the development and  
colonization of the district and has pub-  
lished a series of illustrated booklets,  
describing conditions as they really  
exist, copies of which may be had by  
writing the secretary of the Board of  
Trade, Grande Prairie.

**HARDISTY**

a town and divisional point, 135 miles east of Edmonton, on C.P.R. main line, Edmonton to Winnipeg. Has C.P.R. telegraph, Dominion Express and Alberta Govt. telephone offices. Centre of extensive mixed farming area. Splendid opportunities for all lines of enterprise. The town overlooks the Battle River Valley, and the soil is gravel, overlaid by sandy loam. There is no better water in all the west, making it exceptionally healthy. The school is a modern brick building in which both public and high school grades are taught up to and including twelve. The C.C. Ry. Co. have large yards at this point, also up-to-date machine shop in connection with roundhouse, where a large staff is em-

## HARDISTY—Cont.

played. The heavy pay-roll is a great assistance to the business of the town. Large shipments of cream and eggs are daily being made, and in fall of year the local stock yards present a very active appearance. Three different grain companies are represented here, and each has large elevator. Has Anglican and R. C. churches. Population 437, with tributary population of 4,795

About one-half mile from the town is a beautiful lake, where many families camp during the summer, bathing being the principal pastime. Motor parties from adjacent towns spend their week-ends very pleasantly at this lake, which is located on the side of the town park, which consists of about 176 acres, in beautifully wooded land.

### HIGH PRAIRIE

a growing town on E.D. & B.C. Ry., 234 miles northwest of Edmonton and 90 miles southeast of Peace River. Population over 1,500 in town and district. Has Dom. Govt. telegraph and telephone system, C.P.R. telegraph, and express office, sub-agency Dominion Lands, 4-roomed consolidated school, Anglican and R. C. churches, office of supervisor of Soldier Settlement Board. Excellent oil indications, oil seep in townsite. Prairie Oils Ltd. have derrick and machinery and bored down at least sufficient to find gas in commercial quantities, and have applied for permission to manufacture the gas into carbon black. An excellent mixed farming district, with plenty of water and moisture, 3 rivers and creeks traverse the district, and well water obtained at 15 feet. Drought or crop failure unknown. Timothy, brome grass and wild hay grow in abundance. Oats yield as high as 125 bushels per acre, spring and fall wheat and rye do well. The soil is silt; logs and decayed material found 15 feet below the surface. Sheep raising successfully carried on. Settlers mostly British and American. Some good homesteads to be had from 8 to 15 miles. Improved land \$15 to \$30 an acre. 20 miles from Lesser Slave Lake with good resort, sandy beach, fishing, etc. Good graded roads throughout district.

## HIGH RIVER

a P.O. and incorporated town on C.P.R. Calgary-Macleod line, 40 miles south of Calgary, and 68 miles northwest of Macleod. On Banff-Grand Canyon automobile highway. Has rural mail route, municipally owned electric light, waterworks and sewerage systems. Has C.P.R. agent and telegraphs. Dom. Express, Alberta Govt telephones. A creamery is wanted.

The farming district of High River might be said to be Townships 18 and 19, Range 2 West of the 5th Meridian, and extending east to Range 28, West of the 4th Meridian. This is 8 townships—288 square miles—184,320 acres of good land. This approximately represents an investment in land alone of \$5,529,000.

During the past year the Canada Air Board selected their site at High River for an aerodrome, which completes the link in the Transcontinental Air route and the work of forest fire patrol is conducted from this point, daily routes being made north to Eckville, and south to Waterton Lakes. A wireless telegraph and telephone system has also been established. This is at the present time the largest air station in Canada. Improved farm lands can be purchased from \$35 to \$50 per acre. Grain and stock farming. Land is very fertile, soil yielding some years as high as 45 bushels of wheat and 85 bushels of oats.

High River is the centre of a very large hospital district, and has just completed one of the most modern and best equipped hospitals in Alberta, having a capacity of from 25 to 35 patients. Ratepayers in district are charged a fee of \$1.00 per day. Lumber mill operated in town employing from 50 to 100 men in season. Output this season 50,000 telephone poles. Population of town 1400 and of the district 11,500.

**HOLDEN**

a prosperous village situated 61 miles east of Edmonton on the main line of the G.T.P. with a population of 250 inhabitants. Good school, telephone exchange, Royal Bank and Herald newspaper; good market facilities and satisfactory train service are convenient to all. The religious needs of the community are served by the Methodist and Norwegian Lutheran denominations who each have a good large church building in which are held regular services. Three elevators of a combined capacity of 120,000 bushels handle upwards of 300,000 bushels annually. A large volume of cream, butter, eggs and poultry are marketed, there being five cream-buying stations who ship these products to the city. In addition there are about 3,000 head of cattle and about 2,000 head of hogs shipped annually, for which there are good and convenient markets in the city of Edmonton. The business of the village is supported by more than 500 farmers residing in the surrounding district, who for the most part are prosperous and own good, comfortable homes. The land is slightly rolling, with a rich, sandy loam soil and clay subsoil partially covered with a growth of poplar trees, which furnish the settlers with fire-wood, fencing and some building material. This land, however, is easily cleared, and the soil is very productive, being well adapted to the growing of grains, hay and vegetables, with yield seldom surpassed. Coal may be had from mines in the vicinity, from which many secure their winter supply of fuel and gas is principally used for heating and lighting. Land prices range from \$18 to \$30 per acre for wild land up to \$50 for choice improved farms.

### INNISFAIL

a P. O. and town on C.P.R. Calgary-Edmonton line, 76 miles north of Calgary, 118 miles south of Edmonton, 13 miles south of Red Deer, and 18 miles north of Olds. It is the largest dairy centre in Western Canada. Innisfail District turns out 40 per cent of the total output of butter in Alberta. It is the largest shipping point of cattle, hogs, horses and hay. It has never known a total failure of crops. It has sufficient rainfall to mature crops: the soil is of the best, as it has the record of growing wheat that took First Prize at the "Chicago World's Fair"—this was grown by W. H. Kemp, at Innisfail.

Innisfail District is not a bleak prairie, but has frequent patches of timber so necessary to farmers. It is well watered with lakes, rivers, creeks and springs, and has an abundance of wood for fuel and inexhaustible supplies of coal. Population 1,000.

a farming settlement near Lacombe Prov. Elec. Div., reached by stage from Lacombe on the C.P.R., 10 miles distant, the nearest mail is now sent via R F D No 3, telegraph point and business centre. Has telephone and public school. Land averages \$25 per acre. 20 farmers in vicinity.

**IRMA**

a P.O. and village on C.N.-G.T.P. Ry., 110 miles southeast of Edmonton, 200 miles west of Saskatoon. Has C.N. telegraph, Can. Express, Alberta Govt. telephone offices, choice mixed farming district, good water and abundant native grass, 3 elevators, bank, church, school. One of the strongest gas wells in Canada is located southeast of Irma. A number of oil well outfits are drilling in the district. The Irma Times serves the vicinity with a weekly paper. Settlers are principally Canadians and Americans. The farmers have been conducting a co-operative store for the last seven years. The district is well supplied with telephone service, some having been erected by the farmers as a co-operative movement. Farm land values from \$15 to \$35 per acre, Population 200.

H. W. LOVE, Reeve.

**KILLAM**

is an incorporated village, with a population of about 400 people. It is situated on the Wetaskiwin branch of the C.P.R., 70 miles east of Wetaskiwin, in Sedgewick Prov. Elec. Division. It is in the centre of the best wheat growing district in northern Alberta, having exported more spring wheat for several years than any other town in Alberta.

The land is of a slightly rolling nature, and has produced as high as 50 bushels of wheat to the acre. A trip through this district would impress any travellers with the prosperity of the farmers. Large barns and commodious houses, many lighted by electricity and heated by steam, are to be met with, while practically every farmer has his automobile, and after his day's work is over, gets the family in and comes to town where he is entertained by one of the best bands in Alberta. It consists of some 30 pieces under the able management of one of its own citizens. There is also a junior band of about 20 pieces that some other towns would be proud to boast of as a senior band. There are three good churches with up-to-date ministers, and a four-room school, steam-heated and capable of preparing pupils for teachers' certificates right at home. There are three general stores and two hardware stores, a drug store, two pool rooms and barber shop, a tin shop, two real estate offices, lawyer's office, dentist's office, a bakery and a blacksmith shop. There are four implement houses and a good doctor. One of the latest additions to the town is the Killam Mfg Co., where large brush cutters are made and sent to all parts of the province. There are three garages and repair shops in town where autos may be repaired or new parts furnished.

In short Killam is a flourishing village of enterprising people, in a progressive community.

## LACOMBE

is situated in Lacombe Prov. Elec. Div., in the central part of the province on the main line of the C.P.R., which runs between Calgary and Edmonton, and also the terminus for the line running east to Winnipeg which gives splendid service both in passenger and freight. It is 113 miles north of Calgary, 81 miles south of Edmonton, and 50 miles west of Stettler. Has C. P. R. telegraph, Alberta Govt. telephone, both rural and city, Dom. express and good post office. Also a Government Experimental farm adjoining the town, containing 550 acres, where experiments are made for all classes of hay and grain, milk, beef cattle, sheep and hogs. It is the centre of a very rich farming district, over \$1,264,000 received in export from this district during 1919, and this does not tell the story of production, as a big portion of what is raised in the district is fed and shipped to the market on the hoof—hogs, beef, milk, cattle, sheep, horses, wheat, oats, barley, rye, timothy, and wild hay is the program that the farmers here have to work with and a failure has never been known among the old-timers in 20 years. "It is not generally known that the best producing beef stock in the Dominion of Canada, is raised in the Lacombe District," said Duncan Anderson, pioneer expert for the Dominion Department of Agriculture. Raw land is selling in this district from \$20 to

**LAMONT**

a P.O. and town in Victoria Prov. Elec. Div., 40 miles east of Edmonton on the main line of the C.N.R. Has C.N. Express and C.N. telegraph office and is at the south edge of a settlement of Austrians and Russians who were brought into the country in 1896 and the following ten years. In the immediate vicinity of Lamont there is a small population of English-speaking farmers, though the business of the town appears to be gradually falling into the hands of foreigners. The people of Eastern European extraction who first settled here were the poorest of the poor and it has taken them until within the last five years to get on their feet. They are now, however, achieving prosperity and the town and district are bound within the next five or ten years to become a wealthy and influential part of Northern Alberta.

In Lamont is located the Lamont Public Hospital, an Institution which for several years has been doing splendid work. There is also a four-room school in which public and high school subjects are taught. There is a Union Church which serves the needs of the Eng-

lish-speaking population, while throughout the rural districts are found Greek, Catholic Orthodox, Catholic and Roman Catholic Churches, which meet the requirements of the foreign-born population. There are banks, general stores and a drug store in town, and the fact that there are five grain elevators indicates the confidence of the grain-buying companies in Lamont's future. Population 450.

J. E. BUCHANAN.

## City of Lethbridge

### LETHBRIDGE—Cont.

The city of Lethbridge is situated on the Crow's Nest Line of the Canadian Pacific Railway Company, and is about sixty miles north of the United States boundary. A railway line runs from Lethbridge to Sweet Grass where connection with Great Falls and other United States points can be made. Railway lines also run north from Lethbridge to Calgary and Edmonton, and east and west to Winnipeg and the Pacific Coast respectively. Good roads radiate in all directions communicating with all parts of Canada and the United States.

Lethbridge is a city of sunshine, of attractive homes and beautiful gardens, of pretty parks and shaded streets and avenues. It is also the commercial centre for one of the richest agricultural areas on the North American continent and one of the world's greatest coal fields.

In favorable seasons yields of wheat averaging as high as fifty bushels to the acre have been harvested on many of the farms within a radius of 100 miles of the city. The record yields of wheat and oats on fields of 1,000 acres or more were made on a farm within a few miles of Lethbridge in 1936, when 53,230 bushels of wheat were threshed from a field of 1,000 acres and an average yield of 126 bushels of oats to the acre was obtained from another field of 1,075 acres. On irrigated land, of which there are now about 280,000 acres in the neighborhood of Lethbridge, sure and prolific crops of alfalfa, grain, potatoes and vegetables are obtainable year after year with unfailing regularity.

The coal production from mines within nine miles of the city of Lethbridge during the busy season is as high as 4,000 tons daily. About two thousand men are employed in these mines and the monthly payroll is in excess of \$300,000. Lethbridge is also the natural gateway and distributing point for the Crow's Nest Coal field where about two million tons of bituminous coal is produced annually.

The commercial activities of the people of Lethbridge are based on the mining and marketing of coal, the marketing of farm products, and the distribution of all kinds of necessities and supplies for the numerous mining and farming communities situated within about a hundred miles of the city. As a divisional point of the Canadian Pacific Railway, with the offices of the superintendent and his staff, and the local shops and roundhouse, Lethbridge is also the home of many people in the service of the railway. The city is modern in every way, and owns up-to-date electric light, water, sewage and street car systems. The streets and avenues are wide, and in the residential section are lined with trees.

The educational facilities of the city of Lethbridge are modern and efficient. The elementary grades are taught at five large schools, situated in various parts of the city, with a staff of approximately sixty certificated teachers. At the high school, students are trained up to grade twelve. During the winter months evening continuation classes are open, where courses in general business subjects, English, arithmetic, physics, engineering and the manual arts are given.

Several churches, representing the various denominations, care for the spiritual needs of the people of Lethbridge. Many of the church buildings are quite imposing edifices that would be creditable to the people of a much larger and older city than Lethbridge. The Y.M.C.A. headquarters is a large up-to-date building, with club rooms, swimming pool, dormitories, etc.

The size and style of the public buildings, banks, and many of the office blocks indicates a faith in the future, shared alike by the governments of the Dominion and the Province, the financial concerns, the merchants and the public generally.

Lethbridge's future is indeed a rosy one. Immense mineral and agricultural resources in the country which Lethbridge serves, and is served by, have been as yet scarcely more than scratched. The Lethbridge coal field covers an area of about sixty thousand acres, with an estimated total of three hundred million tons of semi-bituminous coal. More than half a million acres of the rich land in the surrounding country is at present under irrigation or is feasible of irrigation. This great area, intensively farmed under irrigation is capable of producing crops of the highest quality in immense quantities regularly year after year.

In the neighborhood of the city of Lethbridge 280,000 acres of rich land can now be irrigated, two new systems—the Lethbridge Northern Irrigation District, which adjoins the city on the north, and the United Irrigation District, covering an area of which the northern boundaries are about thirty miles south-west of Lethbridge—with a total of about one hundred and forty thousands acres under irrigation, having been completed this year. The importance of this development to the city of Lethbridge is very great, for it will make possible larger returns from smaller farms; it will also enable the farmers to grow trees more easily around their homes, and will make the country one of the garden spots of Canada. The beautiful parks and gardens and tree-lined streets are indications of the results obtainable on the rich soil with the long sunny days and the proper application of water. The fifty bushel wheat crops in the wet seasons are other evidences of the same combination, as

**LETHBRIDGE—Cont.**

are also the alfalfa crops of four tons to the acre which are harvested regularly on many of the farms now under irrigation.

The value of co-operation between town and country is nowhere more appreciated than in Lethbridge. The citizens, through the Board of Trade, have ever been active in the interest of the farmer, and anything that would assist in improving farming conditions in any way has always been strongly supported by the Board. Irrigation development, better roads, more convenient railways, proper educational facilities for children in the country are some of the movements in which the people of the city have been identified. It is not from a spirit of altruism that the people of the city have taken part in these and various other movements in favor of their neighbors in the country. In this interrelationship between town and country both the farmer and the citizens have benefitted in many ways.

**IMPORTANT FACTS ABOUT LETHBRIDGE**

Population 12,000. Altitude 2,950 feet.  
8 Public Schools. 12 Churches.

## LLOYDMINSTER

a P. O. and town on the Canadian National Ry., Edmonton-Winnipeg lines, 40 miles east of Vermilion, 169 miles east of Edmonton and 181 miles west of Saskatoon. Has C.N.R., agent, C.N. telegraph, and Alberta Govt. Telephone offices. The town is divided by the Meridian Road between the provinces

Service Stations at Calgary and Edmonton  
**DYSON BATTERY SERVICE LTD.**  
 Distributors of  
**WILLARD**  
 Storage Batteries

**LLOYDMINSTER—Cont.**

of Alberta and Saskatchewan. The post office and major portion of the business firms are on the Saskatchewan side of the Meridian Line Road while the station, telephone exchange and Alberta Hall are on the Alberta side. The town has several brick buildings and presents quite a prosperous business appearance. The principal part of its 1,500 population is English speaking. The town has a creamery, the output of which is some three hundred thousand pounds annually. Five elevators (capacity 125,000 bushels), a flour mill, 225 barns. The Canadian Bank of Commerce and Royal Bank of Canada both have their own buildings. A free municipal hospital, collegiate, high and public schools, churches of all denominations are represented. A continuous telephone and electric light service is in operation, and in fact Lloydminster is well represented in all lines of business that a prosperous town requires for the convenience of its residents. The town and district is well taken care of from a news point of view by the Lloydminster Times.

**FARMING**

The district is one of the finest mixed farming districts in Western Canada. The country is gently undulating, varying from parkland to open sections, suitable for tractor farming, and is freely interspersed with creek springs and lakes, which in season are besieged by sporting birds which make them a veritable hunter's paradise.

The soil is black loam from 8 to 16 inches deep, on a brown clay subsoil. There is practically no stone.

There is no hardpan or alkali.

The uncultivated land is covered with a rich growth of grass, vetch and peavine.

There is abundance of moisture.

Good well water is easily secured.

The district is free from hail.

The Lloydminster farmers hold 65 Provincial and International prizes for grain.

The Lloydminster farmers won the Shield for the best wheat, oats and barley grown in the Province of Saskatchewan during 1918.

Seed grain is shipped from Lloydminster to all parts of America.

One half of the cultivated land is sown to wheat. Many fields have yielded 45 bushels of wheat per acre.

Fall rye is grown very successfully here.

Barley of all varieties yields very heavy crops here.

Flax grows here, and is a very profitable crop.

Lloydminster holds the World's Prize for oats. Many fields of oats have threshed as high as 120 bushels per acre.

**WORLD'S PRIZE FOR OATS**

The Colorado Silver Trophy, valued at \$4,000, awarded by the State of Colorado, U.S.A., was won at the Corn Show in 1911, and also in 1913 at Columbus, Ohio, U.S.A., by Messrs. J. C. Hill and Sons Lloydminster farmers. It was won for the third and final time by Messrs. J. C. Hill & Sons from 1,300 competitors drawn from all parts of Canada and the United States in 1914, at Dallas, Texas, U.S.A. It thus became the permanent property of Messrs. J. C. Hill & Sons, of Lloydminster. This is the World's Prize for Oats.

**THE CANADIAN PRIZE FOR OATS**

The Brackman-Ker Silver Trophy, presented by the Brackman-Ker Milling Company, for the best milling oats grown in Canada, was won three suc-

cessive times by Mr. C. H. Barrett, a Lloydminster farmer, at the Alberta Provincial Seed Grain Fair at Calgary, and this Trophy now remains permanently in Lloydminster. This is the Canadian prize for oats.

Alfalfa, timothy, brome and western rye grass grow plentifully here.

Sunflowers grown here for silage yielded upwards of 20 tons to the acre.

**LIVE STOCK**

In December, 1920 and 1921, Messrs. L. Weaver & Sons, of Lloydminster, won the Clydesdale Grand Championship at the Chicago International Fair with their Canadian bred horse, "Wee Donald," and in 1921, Grand Champion at Guelph Stock Show.

Five carloads of live stock are shipped from here each week.

The district is producing splendid live stock.

Cattle, sheep, and horses live outside all winter.

Three-year-old grass fed steers weigh 1,600 pounds.

**DAIRYING**

The Lloydminster Co-operative Creamery manufactures 300,000 pounds of butter per year.

**LAND VALUES**

Improved and unimproved land can be purchased here, either direct from the owners or through any of the local land brokers.

The Canadian Pacific Railway Company and the Hudson's Bay Company have several thousands of acres of unimproved land for sale, ranging in price from \$15.00 to \$22.00 per acre. Well improved farms can be purchased at from \$20.00 to \$35.00 per acre.

We need more settlers for our farm lands. The district is large and offers an unequalled opportunity.

The Secretary of the Board of Trade will be pleased to furnish you with further information regarding this district. For further information write—

The Secretary,

## MACLEOD

a P.O. and incorporated town of about 1,800. It is a centre of the ranching industry for Southern Alberta. It is at the south terminus of the C. & E. branch line of the C.P.R. about 15 miles east of the foothills of the Rockies. It is about 109 miles south of Calgary, to which there is an excellent motor trail. It is about 32 miles west of Lethbridge. There is an excellent motor route to Lethbridge. It is 50 miles from the Montana border. Macleod is on the main line of the Motor road from Montana to Banff. About 50 miles to the southwest is Waterton Park, now being developed by the Government for a summer resort and which is one of the most beautiful summer resorts in Canada. At present the Government has launched an irrigation scheme to include the lands north and south of Macleod. The projected line of the C.N.R. is graded from Macleod south about 30 miles. The Town's fuel consists of natural gas piped from the gas wells at Bow Island. It has an up-to-date filtration plant, splendid electric light and water system, municipally owned. It is a C.P.R. freight divisional point.

# Intensive Advertising Brings Home the Bacon

The vast majority of recognized Authorities admit that intensive advertising brings the results.

Intensive advertising in Medicine Hat and surrounding district can only be done thoroughly through the medium of the **NEWS**.

The Readers of the **NEWS** will ask for your goods if they see them advertised. Create the demand, and the buyers will do the rest.

**We are Members of the  
AUDIT BUREAU OF CIRCULATION**

## Job Printing

### **Ruling, Book Binding and all kinds of Printing**

The **NEWS** has a complete and up-to-date plant, and can do any printing you may require. There is no need for any firm, corporation or individual to send out of town for any printing. Compare the quality of our work and promptness of service with others, and we will get your order.

# The Medicine Hat News

Delivered to your door each evening for 25 cents per week.

By mail, \$6.00. Weekly by mail \$1.50.

## City of Medicine Hat

Situated on the banks of the South Saskatchewan River, midway between Winnipeg and Vancouver. Beautifully treed streets and parks. Mildest climate on the prairies. Municipally owned natural gas system, supplies cheap, fuel for domestic and manufacturing purposes. A real home city. Population 10,505.

Divisional point on the main line of the Canadian Pacific Railway and the termini of the Medicine Hat-Suffield-Lomond branch and Medicine Hat, Kootenay Landing, Nelson (Crow'snest) branch, Canadian Pacific Railway. The Leader-Pashley branch is under operation to Schuler, within thirty-miles of Pashley, the latter being the point at which this branch will connect with the main line and thence operated into Medicine Hat. The Hanna-Medicine Hat branch, Canadian National Railways is being operated from Hanna to Steveville, a point on the Red Deer River. Grading on the south side of the river has been completed to Redcliff, a town on the main line of the Canadian Pacific Railway, situated six miles west of Medicine Hat. The completion of this branch to Medicine Hat is anticipated, right of way and site for terminal having been acquired.

The natural gas, water, electric light and power systems are all municipally owned, and good service is given the public.

"The town that was born lucky," to quote Kipling, for within the city limits and in the surrounding district lie the greatest fields of natural gas known to the world. The twenty-two wells drilled to date supply the demands of the present day. A rock pressure of 480 lbs., has been maintained over a period of more than sixteen years, proving beyond any question of a doubt, the stability and immensity of the fields. On the coldest day of winter the average pressure on all wells has not fallen below 350 lbs.

The city, therefore, has the distinct advantage of being in possession of a dependable supply of clean, odorless gas and is in a position to supply, through its own natural gas system, cheap fuel for domestic and manufacturing purposes. Gas is furnished residents for fuel and lighting at twenty-five cents per thousand cubic feet, and to manufacturers for industrial purposes at rates arranged on a sliding scale of from 6½ cents to 3 cents per thousand cubic feet. No other fuel is used in Medicine Hat. The smoke nuisance caused by the use of coal and wood, is unknown. The city streets are exclusively lighted with gas and many householders also use it for lighting, though electricity is more generally used. The amount of gas consumed in an average year totals; domestic, 1,874,646,000 cubic feet, industrial; 685,012,000 cubic feet.

Medicine Hat has an abundant supply of pure water. The South Saskatchewan River is tapped at a point three miles

above the city, where the water works and power plant are located in the same building. The Jewell Filtration System is used. The system has a capacity of 8,000,000 gallons per 24 hours, and is capable of supplying a population of 40,000 people. Water for domestic purposes is sold on the basis of number of rooms in dwelling, the cost of supplying a six-roomed house being \$1.91 per month. The rate to manufacturers is 11 cents per thousand gallons.

In addition to natural gas for lighting and power purposes, the city supplies electricity to the private consumer at 10 cents per K.W. hr. and power to manufacturers at from \$20. h.p. up, figuring on a fifteen minute peak load basis, according to the size of the load and when required.

Principal industries; Flour, clay products, stoneware, pottery, linseed oil, greenhouse products, farm machinery, brick, confectionery, coal mining, aerated waters, planing mill work.

Natural gas, supplied at low cost and put to various uses, has been a large factor in the establishment of some splendid industries at Medicine Hat. In fact, this city has become the largest manufacturing centre of the middle west, there being over twenty industries actively engaged in producing a variety of commodities.

The industrial monthly pay-roll is approximately \$285,000, at normal period of operation. Six miles of industrial railway spurs afford good loading facilities. Medicine Hat's three mills manufacture more flour than is made in any other city in Western Canada; 5,006,000 bushels of grain are annually milled.

The following statement shows amount of capital actually invested in plants in this city:

### NAME OF COMPANY INVESTMENTS

Ajax Coal & Mining Co., Ltd.,	\$ 250,000
Alberta Clay Products Co., Ltd.,	910,000
Alberta Linseed Oil Co., Ltd.,	300,000
Canada Potteries Ltd.,	35,000
Canadian Farm Implement Co., (Alberta Foundry & Machine Co., Ltd.)	495,000
Canadian Western Steel Corporation,	225,000

Total .....	\$5,699,000

All of these plants use natural gas.

A cordial invitation is extended to all to visit these industries.

There are several fine parks within the residential section and many of the streets are well treed. Some years ago the city established nurseries in which thousands of trees have been raised and distributed each year to the citizens. A small charge of 10 cents per tree has been made during the past year or two. The encouragement thus given, tree planting is made evident by the large number of trees growing in the city.

Generally speaking, the winters are mild and the growing season is actually longer than in any other section of the prairie provinces. Is substantiation of this statement, it might be pointed out that this district enjoys much the same climate as if situated geographically two hundred and fifty miles farther south. Thus germination sets in earlier and growth of vegetation is more advanced than in other portions of this western country.

The educational welfare of the children is well provided for, there being ten splendidly equipped schools in the city.

The banking institutions are well represented by five banks.

There are ten wholesale houses located in the city, representing the following lines: groceries, fruit and produce, hardware, farm implements and tobaccos, with a trade territory of over 1,500,000 people.

There has been considerable development work carried on in this district in search of petroleum. Four companies have, during the past year, conducted drilling operations near Many Island Lake, about 35 miles north-east of the city, and in each case a strong flow of natural gas was encountered. The greatest depth reached was 2,470 feet. Three of these companies are preparing to resume drilling in the Spring. One well has been started near Bullshead, eight miles south of Medicine Hat. The presence of large deposits of natural gas in the Medicine Hat district is considered by geologists sufficient reason to warrant every effort being made to discover petroleum. The outcome of development work, much of which is progressing favorably, is regarded with keen interest throughout the Dominion of Canada and the United States.

Population 10,000.

**MUNDARE**

a P.O. and station on C.N.R. Edmonton-Winnipeg line, in Vegreville Prov. Elec. Div., 59 miles east of Edmonton, and 14 miles west of Vegreville, in the centre of a very rich mixed farming district. It is conceded to be one of the best business towns east of the City of Edmonton on this line. It has five elevators capable of holding 325,000 bushels of grain. Notwithstanding this fact, these elevators are taxed to their utmost capacity. There is a splendid crop this year, and the elevators expect to ship over a million and a half bushels of grain.

The farmers, with a keen eye to business, prefer to market their grain where they will get the best value for their money, hence Mundare's reputation for bargains attracts the farmers from the vast hinterland to the north. There is a splendid flour mill

which is kept busy all the year. Mundare boasts two banks, the Merchants and the Standard, with large staffs to handle the business. Mundare is particularly proud of its hotel accommodation; the hotel under new management, has been recently renovated, and is now one of the most up-to-date hostelries in the Province of Alberta.

The educational requirements are amply provided for by two large schools and a very efficient staff of public and high school teachers. There is a splendid hall which caters to the social wants of the community. There are three big churches. The town keeps long stretches of sidewalks, both concrete and wooden, in good repair. It has also ample fire protection.

The soil around the town is a rich black loam, and gives a magnificent yield. The main crops grown are wheat, oats and barley, but the district lends itself particularly to mixed farming. The district around Mundare is famous for its big yields of grain: wheat yielding as high as 58 bushels per acre, and oats often over 100 bushels per acre.

A few farms of wild land can yet be had for about \$20 per acre, but cultivated farms with good buildings are selling as high as \$75 per acre. The cheques paid for cattle and hogs shipped during the year, average over \$10,000 per week.

Mundare has numerous stores, two lumber yards, two garages and three blacksmith shops, all of which are doing a good business. The majority of the people are of Ukrainian descent. They are industrious, hardworking people who appreciate the opportunities accorded them of becoming independent in Alberta. Population 375.

## NANTON

a P.O. and incorporated town on C.P.R. Calgary-Macleod line, and on the Calgary - Edmonton - Macleod - Banff automobile road. 58 miles south of Calgary, 51 miles north of Macleod and 27 miles west of Vulcan. Has C.P.R. agent and telegraph, Dom. Express and Alberta Govt. telephone, municipally owned electric light plant, natural gas for cooking and heating at 35 cents per thousand.

Nanton is one of the old and well-established towns of Southern Alberta, and is surrounded by one of the best grain-growing, mixed farming and stock-raising districts in the province. As high as 65 bushels of wheat, and 125 bushels of oats to the acre have been threshed in the district, while a conservative yearly average of wheat is from 30 to 40 bushels to the acre, and oats will average from 60 to 70 bushels. In 1916 over 1,500,000 bushels of grain was shipped from Nanton.

Nanton has five churches, a consolidated school with seven teachers. District Court, City Hall and fire department, a moving picture theatre and six grain elevators. The Imperial Oil Ltd, is prospecting for oil about 35 miles west of Nanton and are drilling two wells at this time.

Nanton as a town is in exceptionally fine condition, no debentures or interest being overdue, and the city has a nice balance to its credit in the bank. There is an exceptional opening for a flour mill, Improved farm land can be purchased at from \$35 to \$50 per acre. Population between 700 and 800.

point for large quantities of gasoline and by-products of the Okotoks Oil Fields, located about 15 miles west of the town, discovered in 1914. Large coal deposits and other minerals are to be found in the adjacent foothills and development work in the coal fields is being done at the present by Mr. P. Burns, the Calgary cattle king. Lying on the banks of Sheep Creek, abundance of water is available and ideal locations for almost any kind of industry are available at very reasonable prices. The trunk line of the Canadian Western Natural Gas Co. is connected with the town of Okotoks and supplies fuel to the residences and factories. Population 500.

Pelletier Donat postmaster

## PEACE RIVER

Peace River is situated in a very advantageous position on the banks of the great river of the same name at the junction of the Smoky and Hart tributaries to that greatest of Albertan rivers.

It is 315 miles northwest of Edmonton and is reached by the E.D. & B.C. Railway to McLennan Junction and then the Canada Central Ry. for 50 miles north into the town.

Peace River has a population of 700, and this is a permanent population, not the transient residents of pioneer days. The growth of the town is gradual and stable and the people are progressive. Owing to its geographical position, its transportation facilities and its natural wealth, Peace River is bound to be the centre of the great development to take place in the Great Peace River District.

The Public School is a five-roomed one and High School work is taught up to Grade Eleven.

The Central Dominion Lands Office for the P. R. district is located here and the business is increasing so that the staff has been increased to eight this past year.

The Peace River Board of Trade is an energetic body of business men and is assisting in every possible way to aid the prospective settler and to build up the country tributary to the town.

Excellent farming land extends from the west side of the river right through to Dunvegan, the Sixth Meridian being located midway. The chief centres of settlement in this part are: West Peace River, Shaftesbury, Bear Lake, Paul's Corners, and Griffin Creek. North of West Peace River and Bear Lake there is good land open for settlement as far as Whitemud River. A wagon road extends farther north to Battle or Notkewin River. There is excellent prairie land here, surrounded by fairly heavy timber. Practically no land has been taken up yet in this part. During the season of navigation the Battle prairies can be easily reached by steamer. A wagon road leads from the steamboat landing near the mouth of the river into the heart of the prairie, a distance of 25 to 30 miles. Supplies are available at the trading post at the landing.

The land surrounding the town of Peace River, on the same side of the

## PEACE RIVER—Cont.

river, is rough and broken by the junction of the Smoky and the Hart rivers with the Peace. There is, however, much good grazing land in numerous valleys and ravines. On the plateau above the valleys the soil is good but mostly wooded, and has some muskeg and marsh.

The Peace River oil field has become known and looked to by prospectors in every part of North America. The pioneer drillers have had an uphill fight to finance and support operations during the past financial crisis but the future is very bright and the prospects of proving the field are looking brighter every day. The men engaged in the drilling operations have implicit faith in the wealth of the field and the time is not far distant when the Peace River oil field will be the mecca of oil men all over America.

The Peace River valley is very rich in natural mineral deposits awaiting development and are attracting capitalists from all parts of Canada and the United States.

A company has machinery on the way to develop the Carbon Black deposits at Peace River, the Dom. Govt. having granted eight townships to them for development work, on the understanding the company spends half a million dollars in nine months time.

Peace River boasts one of the finest river steamers in Canada, the "D. A. Thomas." The amount of river traffic and river tourist travel is increasing yearly and is adequately handled by the above named company. The river is navigated for about 300 miles each way from Peace River, the centre of navigation and the railway terminus. Many ranchers are going by stream into the rich grazing land in the Peace River Block and are adequately served during the navigation season by the excellent river service. Down stream the settlements of Battle River and Fort Vermilion have a natural outlet by the river and hundreds of tons of freight are transported each year to supply the pioneer explorers and traders who go even beyond the Arctic circle and penetrate the land of the midnight sun.

The building of the large steel railway bridge over the Peace River at the town has opened the gate to the development of vast areas to the north and west. In the course of a year or two the railway will undoubtedly be extended to serve the already thickly settled districts from Peace River to Dunvegan, while the vast unsettled area on the west side of the river from Peace River to the Battle River settlement will soon be invaded by the homeseekers and pioneers and the town will be the chief distributing point of a territory larger than that to-day served by either of the larger centres, Edmonton or Calgary.

## PINCHER CREEK

a P.O. and town of 1,100 population, situated 2½ miles south of Pincher on the Crow's Nest line of the C.P. Ry., 30 miles west of Macleod and 40 miles east of Crow's Nest on the British Columbia boundary, and is 105 miles due south of Calgary. It is the centre of a large and prosperous farming and stock-raising community. All classes of grain are grown, both winter and spring wheat yielding from 25 to 50 bushels per acre. Dairy farming is very successful. There is a wonderful opening for a creamery at Pincher Creek.

There is a good automobile road to the Waterton Lakes Park, 35 miles south of the town, which the Dominion Govt. is developing into a beautiful summer resort.

Pincher Creek is one of the oldest communities in the province; the first store was started in the spring of 1883, and the town was incorporated in 1906, and is financially in first class shape. Debenture payments are promptly met, as well as all current liabilities, the per capita debt of the town including public utilities debt amounting to less than \$65.

The town has a large four-room public school, also separate school, and the high school taking up grades nine

to twelve, in the upper storey of the Municipal Building. The electric light plant is owned and operated by the town, night service being supplied to the residents at cost. There is a gravity water system in the town owned by a private company which gives an abundant supply of first-class water for domestic use, and a fair pressure for fire protection. This system has been in operation since 1905.

All classes of business are represented in the town. There are two large garages fully equipped, and a first-class machine shop that can handle almost any class of repair work. There is a large concert and dance hall, and an opera house with a seating capacity of 350, in which moving pictures are shown four nights a week, while travelling troupes pay frequent visits.

The park, consisting of twenty acres is owned by the town and is used for all classes of athletics, also horse racing; there is a curling rink with two curling sheets, and a large open air hockey rink; the golf links also adjoin the town on the west.

The town boasts two first-class hotels which cater to the wants and wishes of the traveler, tourist and prospective settler, as well as to the ever-increasing flow of hunters and fishermen. Busses from the hotels meet all trains.

The municipal sec-treas. will gladly furnish any desired information to prospective tourists or settlers.

**PONOKA**

a P.O. and town on the C.P.R., 60 miles south of Edmonton, and 137 miles north of Calgary, 22 miles south of Wetaskiwin, and 17 miles north of Lacombe. Has C.P.R. agt., C.P.R. telegraph, Alberta Govt. telephones and Dom. Express. It is a thriving town with a population of about 700, and is surrounded by a well settled district of prosperous farmers who are employed chiefly in mixed farming. There are four cream stations, one cheese factory, three elevators, one high school with efficient teachers and well equipped to serve the educational needs of the town and district. The Provincial Hospital for the Insane is situated about two miles from the town and employs a staff of about 150 men and women. An idea of the potential wealth of the town and district can be obtained from statistics which have been taken from a reliable source. During the year 1923 there were about 1,000,000 bushels of wheat; 500,000 bushels of oats; 150,000 bushels of barley, and a small amount of rye shipped from this district. In addition to these, there was considerable grain kept by the farmers and used for feeding hogs and cattle. During the same year there was in the neighborhood of \$300,000.00 worth of hogs; \$250,000.00 worth of cattle, and \$25,000.00 worth of sheep marketed. The soil in this neighborhood is chocolate loam with a clay sub-soil and moderately wooded with poplar and balm. Unimproved land may be purchased as low as \$15 per acre, and improved land as high as \$100 per acre.

Sether Mrs J postmistress

## RAYMOND

was incorporated in 1903. The first settlers came in 1901. In July, 1902, the Ellison Milling and Elevator Co. commenced their enterprises and by harvest time the farmers were able to market their cereals at home and also to receive flour from their home grown wheat. The same fall work commenced on the sugar factory and after one year of construction a half million dollar factory was in operation and tons of sugar were made from the sugar beets grown in the Raymond district. This industry was the means of distributing money to the boys and girls in the summer for thinning beets and the young people also assisted materially in the digging of the beets. Due to many reasons the factory was removed in 1916, some reasons mentioned in public are improper management, too intense an industry for such a newly settled country, and the scarcity of help for successful beet growing.

Close to where the sugar factory did stand we now have a Provincial School of Agriculture and Experimental Farm which is proving of much value to our community.

Raymond has grown steadily and the population is now around fifteen hundred people. Raymond is eighteen miles south of Lethbridge, 12 miles east of Magrath and 6 miles West of Stirling. There are also good roads going to Montana, Glacier National Park and the Waterton Lakes Park.

Running in an easterly direction from the south and west of Raymond is a large irrigation canal owned by the Canadian Pacific Railway Co. This water serves many of the farmers of Raymond. Irrigation has been so helpful for crop growth that many farmers not now receiving irrigation water are anxious for it and arrangements are now under way to increase this needed moisture. Two miles south of Raymond is situated the "Key" for the increasing of our water supply by storage, the Raymond Reservoir, having a capacity for 17,000 acre feet of water. Joining this reservoir on the east is another known as the Milk River Reservoir, having a capacity for 79,000 feet of water. At the present these reservoir sites are held by the C.P.R., but it is expected that these storage basins will soon be put into use and that more than 50,000 acres of land may soon be irrigated and enriched by the use of these natural storage basins. The water to fill them may come from the Milk River, which finally flows into Montana, or it may be filled by the water from the St. Mary's River.

Raymond has a municipally owned water system. It is supplied with electricity for lighting and cooking and power purposes by the Raymond Electric Co.

Raymond has the best opera house and dancing pavillion in the West, the spring floor being a great attraction, causing many visitors to join with us in our amusements.

Besides having one hundred thousand dollars invested in an Agricultural College, Raymond also has a high school

and a district school, each costing around fifty thousand dollars.

There are two Church of Jesus Christ and Latter Day Saint churches and one Presbyterian church used regularly for service.

The Raymond people are industrious. They have some of the best live stock one can buy. Raymond is an ideal farming district. Several car loads of vegetable produce leave this district yearly and the enormous wheat crop grown each year more than fills the buildings. of the three elevator companies now operating. Raymond farmers have upon several occasions secured world prizes for yield and quality of wheat produced.

The people of Raymond are always pleased to make visitors welcome. Any time further information may be had by writing to the Secretary of the Raymond Board of Trade.

#### REDCLIFF

a P.O. and town, 6 miles northwest of  
Medicine Hat and 171 southeast of Cal-  
gary, situate on the north bank of the  
South Saskatchewan River, and on the  
main line of the C.P.R., also on grade  
under construction of C.N.R. of Medi-  
cine Hat and Hanna line. C.P.R. tele-  
graph, local and long distance Govt.  
telephones. It is an excellent industrial  
centre. Level, accessible area makes  
possible the grouping together of allied  
industries, with all the advantages of  
easy shipping and distribution, for a  
fraction of the cost involved at other  
points where natural disadvantages have

## REIST

a P.O. on S13 T31 R10 W4, in Acadia  
Prov. Elec. Div., reached by stage from  
Youngstown on the C.N.R., 13 miles  
south, the nearest railway station, tele-  
graph point and business centre. Scot-  
field, 8 miles south, is nearest telephone  
office. Has Mennonite church and pub-  
lic school. Farming and stock-raising.  
Land averages \$40 per acre.

Alberta Govt Telephones  
Watson Ernest acting PM

## RENO

a flag station on Central Canada Ry.,  
in Peace River Prov. Elec. Div., 236  
miles northwest of Edmonton, 25 miles  
southeast of Peace River, the business  
and banking centre, and 24 miles north-  
west of McLennan, the nearest P.O., tele-  
graph and express office.

## RED DEER

the Midway City, has an area of 900  
acres and a population of 3,000, in and  
adjoining the corporate limits. It is on  
the Calgary and Edmonton branch of  
the C.P.R. about half way between  
these two cities. It is the terminus of  
the Alberta Central branch of the C.  
P. R. and Red Deer is also connected  
with the Brazeau branch of the C.N.R.  
Has C.P.R. Agt., C.P.R. Telegraph, Al-  
berta Govt. Telephones and Dominion  
Express offices. C. N. Ry. agent and  
Canadian Express agent

Being the largest town between  
Calgary and Edmonton, with three  
railway lines serving the district, it  
is the natural wholesale distributing  
point for Central Alberta. Two whole-  
sale grocers have warehouses here  
and there are good openings for other  
wholesale lines such as hardware,  
boots and shoes, etc. The Imperial Oil  
Co. have recently erected two 100,000  
gallon oil tanks. The British-American  
Oil Co have tank and warehouse. Head-  
quarters for Central Alberta Farmers  
Co-op Shipping Assn., egg collection  
station for Govt. Co-op Egg Marketing  
Assn., a brick manufacturing plant and  
tent and mattress factory are in operat-  
ion, and there is a candy factory, Liquor  
Vendors, store and distributing ware-  
house for breweries, and a large lumber  
mill located here, which is not at pre-  
sent operating.

Red Deer is the centre of the mixed  
farming and dairying part of Alberta,  
many creameries and cheese factories  
operating in the district, and some of  
the best dairy herds in Canada are  
owned near here. This district being  
wooded and with a deep clay subsoil  
produces good crops of hay and grain  
year after year without failure, even  
when other parts of the West suffer  
from drought. Wild lands sell for \$10  
to \$25 per acre, and improved farms  
from \$25 to \$75 per acre.

Red Deer is admitted to be the most  
beautiful residential town in Alberta,  
having all modern conveniences, elec-  
tric light and power, waterworks, sew-  
ers, cement walks, boulevards, a 40-bed  
municipal hospital, Roman Catholic  
Convent with about 100 pupils, four  
public and one high school, the Provin-  
cial Training Institute with over 100  
patients, and the principal training  
farm for returned soldiers who wish  
to take up land under the soldiers  
settlement plan. Large exhibition  
grounds and buildings are owned by  
the city and 80 acres of natural parks.  
Within a short distance are two fine  
summer resorts—Sylvan Lake, 14 miles  
west, and Pine Lake, 25 miles east.  
Good shooting and fishing is obtainable  
close to town and all branches of sport  
are represented—golf, tennis, football  
and baseball in summer, and curling,  
hockey and skating in winter. Red  
Deer has commission government and  
with all its modern conveniences, its  
debenture debt is comparatively low,  
and the taxes are lower than in any  
town of similar size in Western Can-  
ada having the same conveniences. It  
is a desirable place to live in, with its

**Consult** the Classified Section  
of this Directory

**RED DEER—Cont.**

natural beauties, improvements and fine educational facilities and attracts many families as residents. It will make steady growth and remain the best town in Alberta.

**ROSEDALE**

(See also Aerial.)

a station and P.O. on the C.N.R., 4 miles southwest of Drumheller. Has C.N.R. agent, C.N. telegraph, C.N. express and Alta. Govt. telephone. Has two public schools, one on each side of the Red Deer River. The Rosedale Coal Mining Co's camp and plant is situated just across the river. This is the most complete and up-to-date coal mining camp in the West. It has model cottages for the miners, a fine large community hall, where meetings and shows are held, a large thoroughly modern bath and drying house, and a number of other highly commendable features. This mine produces the famous lower seam Rosedale coal, which is of the very best quality for domestic and heating purposes. The company employs 230 men and has a daily capacity of from 700 to 800 tons. There are five other small hand-worked mines in the vicinity with a combined capacity of about 150 tons daily. The district is well settled, and besides coal produces grain and cattle. Population 600, with about 70 farmers in the vicinity.

## SPIRIT RIVER

a divisional point on the E. D. & B. C. Railway, 337 miles northwest of Edmonton and 44 miles north of Grande Prairie, in Peace River Prov. Elec. Div. Has Govt. telegraph and C.C. Express. It is the geographical and business centre of the whole of the territory which is usually referred to as the Peace River Country. The town has hotels, banks, churches, curling rink, dramatic hall, two fraternal societies, a real live board of trade, splendid business houses which would do credit to towns of much larger population. The town is the trading centre of the entire Peace River District, which lies to the west to a distance of 100 miles, and which includes that splendid portion of British Columbia known as the Pouce Coupe district, and to the north a distance of 50 miles, which includes the Waterhole, Friedenstal, Vaurena and Bluesky districts. The above named districts are the great grain growing districts of the Peace River country and the grain from these districts is marketed at Spirit River, being hauled to that point during the sleighing season. The town is picturesquely situated, overlooking a vast parky valley with its open stretches of grain fields intermixed with bluffs of poplar. The newcomer is surprised to find the extraordinary development which has occurred in the short period that has elapsed since the advent of the railway in the year 1916. This point is the end of steel of the Edmonton, Dunvegan & B. C. Railway, and the transfer point for the branch line of railway to Grande Prairie district, and in due time will no doubt be a railway junction point of importance.

The town suffered a loss by fire in June, 1921, amounting to a quarter of a million dollars, but the destroyed area has been rebuilt with better buildings and better stocks.

The soil, which is uniform over the whole district, is a chocolate vegetable loam, 10 inches deep, with a clay sub-soil, and the usual crops are oats, wheat, barley and some flax. The district is most suitable to mixed farming as there is a luxurious growth of grasses and the peavine and wild vetch are a revelation to the uninformed. The district is noted, however, for its excellent quality of seed oats, and the wheat generally shows an excellent grade. Some extraordinary heavy yields of grain are recorded. Oats yield generally from 70 to 900 bushels per acre, and a test of one field of oats in 1918 showed 130 bushels to the measured acre. The demand for seed oats from the Prairie Provinces is more than the supply and the result is that the Spirit River farmer gets a high price for his produce. The pioneer settlers were of a very high

quality and the result may be seen in the splendid farms, due to a considerable extent to the fine example of husbandry set by the early settlers. Several sawmills are in operation in the district, and a very fine quality of lumber is produced, most of which is taken by the settlers of the district. Numerous seams of coal are known to exist within a reasonable distance, but this industry has not yet been opened up as capital has not investigated the possibilities. The supply of wood for fuel, however, is quite sufficient to meet the requirements of the district for some time. Population of Spirit River is 200., and of the vicinity, 600.

Sparks Mrs F postmistress

## STAVELY

is an incorporated town located on the Calgary-Macleod branch of the C.P.R., in Nanton Prov. Electoral District, being 72 miles by rail and 79 miles by excellent auto road south of the former city. Its population according to the 1921 census, is 300, mostly British and American.

It has C.P.R. telegraph and Dominion Express offices, Alberta Government Telephone exchange, the latter with 24-hour service. There are four churches in which services are held regularly, and public and high schools. Fraternal orders are represented strongly by Masonic and Oddfellow lodges, and the business portion of the town has cement sidewalks and excellent water is obtained in drilled wells which average 130 feet in depth. The Canadian Bank of Commerce have two branches located here, and do an extensive banking business in handsome buildings which they own. There is also a resident physician.

To supply the wants of the town and adjacent country there are three general stores, dry goods and two hardware stores, meat markets, a drug store, all of which carry high class stocks of merchandise, whilst two lumber yards furnish all lines of building materials. All standard makes of farming machinery are to be found in the warehouses of the two implement dealers and there are also two well equipped blacksmith shops.

Capacity for the storage of 250,000 bushels of grain is furnished in the four elevators located at this point, and the output of wheat has reached the magnificent total of a million and a quarter bushels in one year. Stock yards of large size, in which the town has installed a Stock Scale which it owns and operates, take care of the heavy cattle shipments made from here by the ranchers who operate to the west of the town.

In the Agricultural Society's Fair Grounds which adjoin the town and contain 30 acres, are to be found an Industrial Building and Stock Pavilion, as well as a half-mile race course, baseball

diamond and golf links, the whole being surrounded by a beautiful belt of trees. A modern curling rink with two sheets of ice provide winter sport. Our local newspaper, the "Stavely Advertiser" has a good weekly circulation.

In addition there are three garages which carry full stocks of accessories, two of which have acetylene welding plants, and these take care of the large auto and tourist business, and this town being situated on the main auto road from Yellowstone to Banff, this business is assuming larger proportions every year.

This town is very fortunately situated in the centre of the most prosperous wheat belt in Southern Alberta, and in addition to this is the market point of the big cattle ranches lying to the west of it. Coal in large quantities has been located in the foothills and only awaits transportation facilities for the development of a large industry in this commodity. In addition to this several promising oil prospects have been discovered in which drilling operations have already been commenced.

The natural productiveness of the soil in this district has greatly enhanced the price of farm lands, which now ranges from \$15 to \$35 per acre, so that with the ample educational facilities supplied in the country schools, and with a 24-hour rural telephone service supplied by twelve different lines, the Stavely District may be said to offer exceptional opportunities to the intending settler. The sportsman, too, finds plenty of game, both large and small, and the mountain streams are well stocked with trout and greyling. Population 300, with 225 farmers in vicinity.

## STERCO

formerly known as Easing, a station and post office situated on S34 T47 R22, west of the 5th meridian, in Edson Prov. Elec. Div., on the C.N.R. Edson-Lovett or Alberta Coal Br. Edson is not the junction point, but Bickerdike, which is nine miles west of Edson, but owing to Edson being a terminal point where trains for this line are made up. It is at present the recognized junction, as there is no accommodation for the travelling public at Bickerdike.

The Imperial Bank has a branch at Edson, but there are no banks at Sterco. Telegraphic facilities have been established, and Sterco is now a "collect" station on the C.N.R. system, lying 37 miles south of Bickerdike and 10 miles north of Lovett.

There are no industries with the exception of coal mining; Sterling Collieries Ltd. owning one of the most remarkable seams in the world. This seam, which is some 280 ft. in depth, and approximately 800 ft. in width, is operated by steam shovels as it stands towering above the level ground, and appears to have been the result of some upheaval. Agriculture is impossible in the immediate vicinity, there being nothing but coal lands situated in the foothills of the Rockies.

Armstrong R L postmaster  
 Switzer O H stn agt CNR

## STETTIN

a P.O. on S9 T56 R1 W5, in Pembina Prov. Elec. Div., 12 miles north of Onoway on the C.N.R. and 10 miles s-w of Busby on the E. D. & B. C. Ry., the business centre. Telegraph and express offices at both railway points. Stage connection with Stn. about 6 miles north. Grain-growing, 50 farmers in vicinity. Land from \$15 to \$20 per acre.  
 Lambert Frank postmaster

## STETTTLER

a P.O. and railroad centre on the C.P.R. and C.N.R., 153 miles northeast of Calgary, 112 miles southeast of Edmonton, 50 miles east of Lacombe and 60 miles west of Coronation. C.P.R. and G.N.W. telegraph. Govt. telephones, Dom. and C.N. Express.

Stettler is a town of about 1,500 population, situated on the Lacombe-Coronation branch of the C.P.R., and on the Calgary-Edmonton branch of the C.N.R. Also the Brazeau branch of the C.N.R. branches out from here, and the Hanna-Stettler branch of the C.N.R. is an assured line that will be built within the next year or two.

It is situated in one of the best districts for mixed farming in the province, having the distinction of never having had a crop failure, nor has it ever been short of feed for cattle. To the east is the bald prairie, while in all other directions the land is more or less scrubby. To the north is the famous Buffalo District. Near the lake it becomes hilly, making splendid protection for the stock, while the hills raise splendid crops. This district never has serious hail storms, and is not subject to frosts. During the past few years the farmers and ranchers have made fortunes, and have erected splendid homes with all modern conveniences.

The sheep industry is in its infancy, but has proved a success, and will increase. Cattle run out all winter without shelter and do well. The Edmonton City Dairy has a branch here, and takes care of all the cream. The Stettler Meat Co has a packing plant in connection, thereby taking care of all meat so that farmers have a ready market for all of their products.

With the two railways running in here on whose tracks there are three elevators, and two loading platforms, there is never a scarcity of cars, which is an important item to the farmer.

The business men of the town are recognized for their progressiveness. The town has passed through the past strenuous years in a very creditable manner, steadily growing and yearly making substantial improvements. It has municipal electric lights, waterworks, and sewerage is being provided for. It has a splendid fire system and a good fire brigade.

Owing to its being the largest town within a radius of 50 miles, and also that it has so many branches of railways, it is an established centre for the district, and will consequently continue to grow, and maintain its position, as the recognized business centre for this district.

## STRATHCONA

now called South Edmonton. A sub P.O. of Edmonton and station on the C.N.R. and C.P.R., on the south bank of Saskatchewan River, in Edmonton city and South Edmonton Prov. Elec. Div. Has telegraph, telephone and express office, ten public schools a high school and Alberta University. Population 13,000. For names see Edmonton.

## STRATHMORE

an incorporated town on C.P.R. main line, 35 miles east of Calgary and 25 miles northwest of Gleichen, in Gleichen Prov. Elec. Div. Is in centre of a productive irrigated district. Strathmore is the headquarters of the C.P.R. Western section of the Bow Valley Irrigation Block, and the company has erected handsome buildings, including administrative offices, clubhouses, workshops, and cottages for members of permanent staff. The wage roll for the department centering on Strathmore, was in 1920 approximately \$250,000. The C.P.R. Demonstration Farm, comprising 2,000 acres of land, with dairy barns, creamery, silos, power plant, etc., is also located here. Strathmore has Dominion Express, C.P.R. telegraph, Alta. Govt. Phones, 4 churches, six-room public and high school, hospital, large Memorial Hall, etc. Population 650. Altitude 3,179 feet. The practice of irrigation throughout the Strathmore district is resulting in the establishment of small farms and intensive cultivation, and the district as a whole has never experienced a crop failure. Unimproved farm prices vary from \$20 to \$40 per acre, while prices of improved lands range about \$40 per acre. 3,000 farmers in district.

**TABER**

a P.O. and town on C.P.R. Crow's Nest line, 8 1/2 miles west of Medicine Hat, and 36 miles east of Lethbridge. Has C.P.R. telegraph and local and long distance Govt. telephones, electric lights and water system, municipality-owned 30-bed hospital. There is 17,000 acres of land under irrigation in the district, and the Taber Irrigation Development Assn. has been organized to develop an additional 110,000 acres, between Taber and Grassy Lake. Coal mining is quite extensive, the Majestic Collieries Ltd., employing an average of 75 miners and mining an average of 350 tons of excellent domestic coal daily. The Regal Collieries Ltd. employ 170 miners with an average daily output of 290 tons. The Rock Springs Coal & Brick Co. Ltd. are mining an average of 125 tons of coal daily, employing about 60 miners. There are seven or eight other coal properties being developed in the immediate vicinity. Farming, stock-raising, dairying and coal mining are all forging ahead in the Taber district. The town has a first-class flour mill, and four grain elevators. There is an excellent opening for a creamery, greenhouse and canning factory. Population 1,500.

About 800 acres open for settlement. Land averages \$20 per acre. There are 25 farmers in vicinity.  
Badot Philip postmaster

## TOFIELD

The town is situated on C.N.-G.T.P. Ry. main line, 40 miles east of Edmonton, and is the junction for the Edmonton-Calgary branch. It has a population of 500, excluding the workers at mines, situate just outside the town limit. It has well graded streets, ample sidewalks in both the business and residential sections. The streets are electric-lighted. Has both public and high school, and 4 churches. One of its greatest assets is its plentiful and cheap fuel supply. There are three coal mines operating, two being within one mile of the G.T.P. Depot, which line has spur tracks to each of the mines. In the winter of 1919-20 from 25 to 30 cars of coal were shipped daily. In the year 1917 the Tofield Mines ranked fifth in production in the Province. Mining operations continue the year round. Agriculturally, Tofield takes second place to none. Tofield draws business from an area extending about 15 miles north, 10 miles east, 12 miles south and 15 miles west. In this area there are probably 400 farmers, farming anywhere from a quarter to 2 sections. Land values range from \$15 to \$35 per acre.

Practically all are engaged in mixed farming.

RAYMOND W. PINCOTT,  
Sec Board of Trade.

## VAUXHALL

Situated on the Suffield-Blackie branch of the Canadian Pacific Railway, about 70 miles west of Medicine Hat and 60 miles northeast of Lethbridge. It is the centre of a tract of irrigated land known as the Vauxhall Unit of the Bow River Irrigation Project, and the wonderful progress which has been made in the town and the surrounding country during the two years that have elapsed since the first arrival of the irrigation

water, show that this is destined to be one of the most prosperous communities in the West. Although the town has only experienced two irrigation seasons, there are already twenty firms doing business here, employing 32 people, and representing an investment of more than \$150,000. Two of the latest firms to establish branches here, are the Imperial Oil Company, and the Ogilvie Flour Mills Co Ltd.

The irrigation system supplies water to the town itself, and it has, therefore, been possible to beautify the appearance of the streets by planting and irrigating rows of trees.

The soil in the district is a medium sandy loam, free from surface rock, containing a large supply of humus. It is particularly well adapted for irrigation purposes, and all kinds of grain, forage and root crops are grown with excellent results. With the steady increase of cultivated lands, and the large yields of forage and vegetable crops, a surplus of produce will accumulate, which it will be necessary to take care of, and therefore in the near future there will be a splendid opportunity in Vauxhall for a canning factory, dehydrating plant and an alfalfa meal mill. Sugar beets do extremely well here, and arrangements could undoubtedly be made to have a sufficiently large acreage planted with these in order to supply a sugar factory.

During the past few years, there has been a shortage of winter feed in the southern part of the province, but with the large yields of alfalfa and other forage crops, it is felt that this territory will prove to be the solution of the winter feed problem, and with an assured supply of feed, it is noticeable that the purebred livestock is getting a strong foothold in the district, there being already some fine herds of Aberdeen Angus cattle and Berkshire hogs. Dairy herds are also being started in the district, and here again the excellent yields of alfalfa and the close proximity of railroad facilities, are of vital importance to the producers.

The irrigation water which is supplied to the lands around Vauxhall, is obtained from Bow River, but before reaching these lands, it passes through two large storage reservoirs, with a combined capacity of 330,000 acre feet, which is enough to irrigate the entire acreage under this project for more than one whole irrigation season. These reservoirs, besides safeguarding the water supply, act as settling-basins, and the water is delivered to the Vauxhall lands in a clear warm stream, entirely free from all silt and able to perform its work with the utmost efficiency. These lands lie between two rivers, and slope from the central high-lands towards Bow River on the North and Oldman River on the South, with a fall of between ten to thirty feet to the mile. There is no brush or undergrowth, so that clearing is unnecessary and the slope is so uniform that very little preparation is needed in order to render the lands ready to receive water. Unimproved irrigated land is selling at a maximum price of \$75. per acre with full water right, and non-irrigable lands can be bought for grazing purposes at a nominal figure.

## VEGREVILLE

town, population 1,800: seventy-three miles east of Edmonton on the main line of the Canadian National Railway. Vegreville is the northern terminus of the Vegreville-Calgary branch of the Canadian National and is an important distributing centre for the Vermillion Valley district, the Vermillion River being at the eastern outskirts of the town. A branch line of the Canadian Pacific Railway is eventually to be built to the town and will run in a northwesterly direction therefrom.

The town has the usual complement of stores and supply houses of various kinds: branches of the Bk of Montreal and the Canadian Bank of Commerce; public high and separate schools; convent boarding school, two hospitals, four churches, two hotels, creamery seven elevators, four stock yards, four lumber yards, sash and door factory, machine shops, garages, newspaper etc. The electric light and power system is municipally owned and there is a complete water and sewage system. Cement walks are to be constructed on the principal business streets during the current year. The town is a live centre doing business for a very extensive district.

The district adjacent to and for a radius of 50 miles from the town is considered to be one of the best in Central Alberta, being particularly adapted for mixed farming.

It was first settled in the early nineties by a number of French-Canadian farmers from Quebec and Kansas. These formed the nucleus of a community

which centred on the town known as "Old Vegreville." In 1905 the construction of the Canadian Northern Railway within four miles of the old town caused its abandonment and the business places removed to the site on the railway. From 1905 until the present the progress of the town and district has been uninterrupted. The original settlers have been followed by farmers from Eastern Canada, the United States and Great Britain, while to the north and west of the town there is an extensive settlement of Ukrainians. The land is of a rolling nature, and is well watered. Bluffs of poplar, willow and spruce lend a pleasing diversity to the appearance of the district. Irrigation is not necessary as the rainfall is ample from year to year to insure good crops. Farming and ranching are the main industries of the district.

## VERMILION

The town of Vermilion is the first divisional point on the main trans-continental line of the Canadian National Railway east of Edmonton. It is 693 miles west of Winnipeg and 120 east of Edmonton. It has a population of about 1,500 and is beautifully situated on the banks of the Vermilion River, a pretty little stream winding through the Vermilion valley. The progress of the town has been rapid yet substantial, and its future is unquestioned. It is acknowledged to be one of the prettiest towns in Western Canada, and has conditions which make it an ideal town in which to live. It provides a splendid local market for the country districts tributary to it, and is a distributing centre for a number of the leading wholesale houses in the West, including many of the larger implement companies. As the mercantile and business centre of a large populous and progressive farming district, the town of Vermilion unquestionably has splendid prospects.

Vermilion has a municipally-owned electric light and power plant (24-hour service), sidewalks, local and rural telephone systems, fire hall and fire apparatus \$40,000 public school building, Government Demonstration Farm and School Agriculture; a site has been purchased for the erection of a Court House and also for a Dominion public building to be erected at an estimated cost of \$50,000; it has departmental stores, several general stores, hardware stores, implement dealers, furniture stores, harness and tinsmith's shops, drug stores, fruit and confectionery stores, bakeries, blacksmith and machine shops, meat markets, garages, picture theatre, flour and grist mills, creamery, grain elevators, general wholesale, doctors, dentists, lawyers, lumber yards, livery barns, hotels, restaurants, five churches (Anglican, Baptist, Methodist, Presbyterian and Roman Catholic), two banks (the Canadian Bank of Commerce and Royal Bank of Canada), Dominion Land Office, customs house and immigration hall; it is the judicial seat for the district, has two newspapers, a detachment of the Provincial Police, a three-thousand dollar skating and curling rink, football, cricket, hockey, tennis, baseball and rifle clubs. The leading secret orders are represented. The town also has a Soldiers' Memorial Hall and a large and well equipped Municipal Hospital.

The district of Vermilion has a splendid reputation for stock-raising and dairy farming; the increase in dairying the past few years has been most marked, and the industry is rapidly developing into a strong and highly profitable farm pursuit. The crop returns are most satisfactory, the yield per acre being exceptionally good. The district is essentially best adapted to mixed farming. The Secretary of the Board of Trade will be pleased to give any information about the town or district.

**WARNER**

a P.O. and incorporated village on C.P.R.  
 Lethbridge-Coutts line, 44 miles south-  
 east of Lethbridge, 24 miles northwest  
 of Coutts and 12 miles northwest of  
 Milk River and 20 miles north of Inter-  
 national border. Has C.P.R. agent and  
 telegraphs. Dom. Express, Alberta Gov-  
 ernment local and long distance tele-  
 phones.

Brick consolidated public school of  
 six rooms employing five teachers with  
 200 attending school. Warner has the  
 distinction of establishing the first con-  
 solidated school in Alberta. Evangelical,  
 Church of England and Catholic  
 churches, and the Lutherans hold ser-  
 vices in the Church of England.

Warner is on the Lethbridge-Sweet  
 Grass auto road, one of the best auto  
 roads in the province, and has the best  
 hotel accommodation south of Leth-  
 bridge. It also has one of the best  
 equipped garages.

The soil of the district is very pro-  
 ductive, growing as high as 60 bushels  
 of wheat and 75 to 90 bushels of oats  
 to the acre. Unimproved farm lands  
 can be purchased from \$15 per acre up  
 and improved farm lands from \$35 to  
 \$50 per acre.

Farming and stock raising. Popula-  
 tion of town 400, with 200 farmers in  
 the district.

Further information gladly furnished

## WEST PEACE RIVER

a P.O. and settlement on west bank of  
Peace River, in Peace River Prov. Elec.  
Div., ½-mile west and opposite the town  
of Peace River, which is on the C.C. Ry.,  
and is the nearest telegraph and busin-  
ess centre. Has telephone office, munici-  
pal office and public school. The settle-  
ment is reached by ferry from Peace  
River, operated by the Alberta Govt.  
Mixed farming and ranching. The river  
is navigable for a thousand miles, tap-  
ping rich country in minerals, coal, oil,  
timber, fur, agricultural and stock-rais-  
ing lands. Land ranges from \$15 to \$35  
per acre. Population 100, with 500 far-  
mers in district.

## WESTWARD HO

a P.O. and farming settlement on S28  
T32 R4 W5, in Didsbury Prov. Elec. Div.,  
reached by stage from Olds, which is 18  
miles east, and is the nearest C.P.R.  
telegraph and Dom. express office.  
Farming and stock-raising.

**WEST WINGHAM**

a country P.O. on S12 T32 R11 W4, in Hand Hills Prov. Elec. Div., 12 miles northeast of Richdale, which is on the C.N.R., the business and banking centre, and nearest C.N. telegraph and C.N. express office. It is reached by stage from Youngstown. Is a mixed farming district. Land averages \$20 per acre. Newton Ad postmaster

**WETASKIWIN**

a city on the Calgary and Edmonton line of the C.P.R., 42 miles south of the city of Edmonton, and 152 miles north of Calgary. The Winnipeg to Edmonton main line of the C.P.R. also runs through the city. C.P.R. agt., C.P.R. tels., Govt. tels., Dom. express. It is the judicial centre of the Wetaskiwin Judicial District, and has a very fine court house. It has two large public schools and one of the most up-to-date high schools in the province. It has a Customs Office and a Dominion Lands Office. The city owns its electric light and water system, both of which are giving very efficient service. Power is generated by natural gas from wells on city property, adjoining the plant. It is the centre of a prosperous agricultural district, the soil, which is very fertile, being of a rich black loam from two to three feet deep with clay subsoil. All the smaller grains yield abundantly, and a crop failure is unknown. Mixed farming is carried on extensively in all parts of the district. Raw land can be purchased for \$15 per acre and improved land from \$25 to \$50 per acre. Free homesteads are still available in the western portion of the district. Population, 2,500.

## **YOUNGSTOWN**

Youngstown is situated in Acadia Prov. Elec. Div., and Judicial Dist. of Acadia, on the Calgary-Saskatoon line of the Canadian National Railways, 228 miles west of Saskatoon and 176 miles north-east of Calgary, and is the central point in a territory comprising some 6,000 square miles, bounded by the Red Deer river on the west and south and the Saskatchewan boundary on the east and is fast coming into importance.

The town, which contains 750 population, is the site of the provincial government school of agriculture. With this school is connected a demonstration farm of 320 acres. The school and farm serve the territory above described. The town contains public school, three churches, six grain elevators, two banks, telephone exchange, newspaper, creamery etc.

Land in the district, which is of the choicest in Alberta, may still be had at reasonable prices and is specially adapted for wheat raising.

EDWARD G. QUICK,  
Secretary Board of Trade.
